MRS. VERMILYA ON MURDER CHARGE

Reports Say That She Poisoned Policeman Arthur Bissonnette with Arsenic.

WILL EXHUME MORE BODIES

Of Those Alleged to Have Been Poisoned by Her During the Past Eighteen Years—Ill, But Being Watched.

Chicago, Nov. 3.—Mrs. Louise Virmilya today was formally charged with the murder a week ago of Policeman Arthur Bissonette by poisoning him with arsenic, following the report of toxicologists who had examined the viscera of the dead roomer at the widow's home. Coroner Hoffman announced that he will have exhumed the bodies of at least two of the other eight persons who have died in her home during the past 18 years.

Prof. Walter L. Haines, Dr. Ralph W. Webster and Dr. E. R. LeCount reported to the coroner that they found more than enough arsenic in the liver and other organs of Bissonette to have caused death.

Chief of Police McWeeny, who with State's Attorney J. E. W. Wayman and several police officers had listened to the toxicologist's report to the coroner immediately swore out a warrant for the woman, who had been under close police surveillance. She had been ill with pneumonia and her condition was such that Capt. Harding, the police officer in charge of the investigation, agreed to await service of warrants until tomorrow, but added several men to the guard watching the suspected widow.

Coroner Hoffman likewise became active and procured permits from relatives of former acquaintances of the widows, whose deaths now have come under suspicion, to exhume the bodies for toxicological examination. There is a State law forbidding the use of arsenic in embalming and the coroner announced that if the poison was found in the bodies dug up the undertakers would be asked for certificates showing whether the law was disobeyed and, if it was not, an effort would be made to connect the widow with the administration of the poison.

Dozens of detectives will search for further light on the eight deaths which preceded the demise of Bissonette, while the descendants were living at Mrs. Vermilya's home.

Just what bodies would be exhumed Coroner Moffman decline to say. It was intimated, however, one of them would be that of Conductor Richard T. Smith, who, boasting of his having lived as the husband of the widow—though not married to her—was taken suddenly ill and died under circumstances that since have aroused official curiosity.

It developed that he had obtained life insurance a short time before, of which she was to be the beneficiary.

Mrs. Vermilya collapsed when informed the experts had found poison in the viscera of Bissonette, but she showed no concern after recovering, and declined to make any statement. The increased guard, however, was instructed not to allow her to pass a moment not under watchful eyes, lest in despondency she attempt to injure herself.

URGE HOLDING COTTON.

Telegrams Were Despatched to Each Commissioner of Agriculture.

Columbia, S. C., Nov. 3.—Urging the holding of every available bale of cotton until September 1, 1912, if necessary for a price of 13 cents per pound and the reduction of acreage next year to not exceeding 60 per cent. of the available lands for the former, telegrams were dispatched today from the office of E. J. Watson, president of the Southern Cotton Congress to each commissioner of agriculture and each State president of Farmers' Unions in the State, throughout the cotton belt. The plan aims to effect immediate and belt-wide retirement of cotton from the market and follows an action taken by the farmers' convention here last night.

In substance the plan calls for books of agreement to be opened in every county throughout the belt in which farmers will be asked to sign pledges to hold a stated number of bales of cotton until September 1st, or until a price of 13 cents is reached. Farmers are also asked to pledge themselves not to cultivate more than 60 per cent. of their lands in cotton next year. An assessment of two cents per bale is called for from cotton growers to pay expenses of the campaign.

BURNS TO DEATH

Richmond Woman Unable to Open Door Suffers Horrible Death

Richmond, Va., Nov. 3.—While attending to her household duties tonight, Mrs. M. E. Yates accidentally dropped a lamp which immediately set fire to her clothing, burning her to death before she could call for help or open a door leading to a room in which her children were playing. Her life might have been saved except for the fact that she was unable to turn the catch lock on the door.

The Grand Theatre.

is the only place to pass an enjoyable evening and be comfortable. **

ENGLISHMAN SENDS TELEGRAM

About Tripoli War—Wants England to Interfere—Tells Horrible Tales of Massacres and Murdering of Women

London, Nov. 3. — The agitation against alleged atrocities by Italians in Tripoli which has sprung up in the British press and is supported by a few members of the House of Commons since uncensored reports arrived here from English newspaper correspondents concerning recent occurrences in Tripoli, received fresh impetus tonight through a telegram received by a news agency from Herbert K. Montague, a second lieutenant of the fifth fusiliers. Lieutenant Montague telegraphed from Soukelyohma by way of Dehibat, on the frontier of Tunis, as follows:

"I feel it my duty to send to you the following telegram and I beg you in the name of Christianity to publish it throughout England. I am an English officer now voluntarily serving in the Turkish army here.

"As you know already about the ferocious resistance which the Turks and Arabs are offering the Italians, I will only express my admiration for their bravery and fortitude, which would warm the heart of any Englishman or of any true soldier of the world.

"Imagine my feelings when on entering and driving the Italians out of Arab houses which they had fortified and were holding, we discovered the bodies of some 120 women and children with their hands and feet bound, mutilated, pierced and torn. Later on at (the name of town was lost in transmission) we found a mosque filled with bodies of women and children, mutilated almost beyond recognition. I could not count them, but there must have been three or four hundred.

"In this European war are such crimes to be committed? Cannot England do something to stop such horrors? In our civilization and times you can hardly believe it, but it is true, nevertheless, I myself have seen it, so I know.

"Even now we are getting news of further massacres of women and children who were discovered on different farms lately occupied by Italians. The idea of the Italians when they slaughtered the innocents obviously was one of revenge for their heavy losses in battle.

"We are this moment under a heavy Shrapnel fire, so you must excuse me if these sentences are somewhat disjointed. There is also an aeroplane circling over our position and directing the enemy's gun fire on us."

Lieutenant Montague's message is dated November 2nd.

OYSTER CREW MUTINY.

Captain of Pungy L. B. Platt Hurt, Perhaps Fatally.

(Special to Washington Post.)

Cambridge, Md., November 2.—Captain Frank Powell, master of the oyster pungy L. B. Platt, owned by Webster, Ford & Co., of Baltimore, was assaulted by members of his crew in the harbor at Hills Point, this county, at an early hour this morning.

The Platt had run in harbor over night, and when the mate, early this morning, attempted to get the crew out, at the order of the captain, the crew rebelled. It is said that the captain then tossed a bucket of water upon the crew and that they came out and one of them struck the captain with a handspike, rendering him unconscious. Dr. Sylvanus Stokes, of Cornersville, went aboard and gave the injured man medical attention, and reported the patient's skull in bad condition, but that the wound was not necessarily fatal.

Following instructions from the comptroller's office at Annapolis, Commander T. C. B. Howard sailed for the scene of the trouble on the State steamer Gov. Thomas, shortly after noon, accompanied by State's Attorney William N. Andrews and Deputy Sheriff George W. James.

The crew of the Platt were arrested and the boat was towed into Cambridge tonight. Capt. Powell was carried to the Cambridge hospital and the crew were lodged in the Cambridge jail to await the result of the injuries to the captain.

WILL BE CONSIDERED.

Important Question Will be Given Hearing Monday.

Washington, November 3.—Railroad employees' relief associations will not be disturbed by the proposed employees' liability legislation to be submitted to Congress this winter by the Congressional committee on employers' liability. A number of roads that have their own relief associations were anxious to know just what Congress would expect of them, and today representatives of the Pennsylvania, Philadelphia and Reading; the Chicago, Burlington and Quincy, the Baltimore and Ohio, and the Atlantic Coast Line met with Senator Sutherland, chairman of the committee, who told them that the proposed legislation would not interfere with the road's individual plans, if, after investigation they were found to be satisfactory. The railroads interested have relief liabilities amounting to $200,000,000, and these associations have been in operation on some of the railroads for years. The railroads felt if Congress enacted such legislation today their own assocatiions would be compelled to discontinue and liquidate, resulting in hardship not only for the railroad, but for the employees as well.

The question will be considered further at a hearing before the full congressional committee Monday.

JURY UNABLE TO COME TO VERDICT

Eight Favored Verdict of Manslaughter and Four for Acquittal.

MRS. M'REE DISAPPOINTED

Prosecution Also Was Displeased With Result—Motion to Grant Mrs. McRee Bail Will Be Commenced by Defense

Opelousas, La., Nov. 3.—A mistrial was recorded in the proceedings against Mrs. Zee R. McRee, charged with the murder of Allan Garland in her home September 21st, when the jury after having deliberated on the case from 12:10 P. M. yesterday, reported at 9 A. M. today that there was no possibility of agreeing on a verdict. Eight favored a verdict of manslaughter and four were for acquittal.

Immediately after the report of the jury, the prosecution asked that the case be set for a re-hearing next Monday, but Judge Pavy announced that this would be impossible.

Tomorrow morning a formal motion to fix a date for the hearing probably will be presented to the court by Acting District Attorney DuBisson and at the same time it is expected that a motion by the defense to grant Mrs. McRee bail will be argued.

T. H. Lewis, counsel in chief for Mrs. McRee, stated that the defense would not oppose an early trial.

On the first ballot of the deliberation of the jury, according to Foreman Hidalgo, there was one vote for murder in the first degree, three for acquittal and eight for manslaughter. On the next and each succeeding ballot the juror who had favored murder in the first degree voted for manslaughter and the one who had voted for manslaughter changed for acquittal.

Mrs. McRee expressed disappointment at the result of the trial. The prosecution was also disappointed as counsel had expected a conviction either of murder or manslaughter.

The killing of Allan Garland, aged 23, member of a prominent South Louisiana family, by Mrs. McRee, aged 36, mother of four children, and wife of a well-known railroad official, attracted intense interest. Garland was shot three times in the back by Mrs. McRee in the bedroom of her home in Opelousas on the morning of September 21st, 1911. There were no eye-witnesses to the shooting.

Counsel for the prosecution presented as a motive for the killing the alleged intimacy between the deceased and the defendant and the alleged desire of Mrs. McRee to prevent her husband from obtaining this information.

Mrs. McRee testified that she killed Garland in defense of her honor, asserting that she feared he would do her bodily harm.

The trial opened October 23rd. Four days were consumed in selecting a jury and four in taking testimony. One day and a half was taken up in argument of counsel. The jury deliberated 24 hours and 50 minutes, after which a mistrial was ordered, it being the belief of the jury that an agreement could not be reached as to a verdict.

DISPOSING OF HOLDINGS.

Reported That Interests Connected With National City Bank Do So.

New York, Nov. 3.—It was stated today in well informed quarters that interests connected with the National City Bank are disposing of their holdings of shares in other financial institutions throughout the country. These holdings are believed to aggregate from 25,000 to 50,000 shares, valued at millions of dollars and probably include several foreign banks as well as a number of domestic institutions.

It is understood that this step is being taken by the National City Bank interests to overcome any further opposition on the part of the National government in connection with the organization of the National City Company, a holding or securities corporation recently formed with a capital of $10,000,000, which was derived from a cash dividend declared by the National City Bank.

The legal status of the National City Company received the unofficial approval of the Secretary of the Treasury, to whom the plan was submitted some month ago, but was opposed by Attorney General Wickersham. As a result of this disagreement, the matter was placed in the hands of President Taft, who, it is expected, will shortly announce his decision. Officials of the National City Bank deny that the bank as an institution has any interest either direct or indirect, in any other bank.

DIES FROM ACCIDENT

Sixteen-Year-Old Girl in Durham Passes Away

Durham, N. C., Nov. 3.—Miss Callie Couch, sixteen-year-old school girl, died this afternoon as a result of a collision with Thomas Shepherd, seventeen years old, while playing old-fashioned ball Tuesday. Young Shepherd's front teeth struck her head and were broken off so that artificial ones had to be made for him. The teeth fractured her skull and she never entirely recovered consciousness.

WILL SURELY FREE RICHESON

John L. Lee, Criminal Lawyer From Lynchburg, Va., Says That Minister is Innocent, and That He Will Free Him.

Boston, Mass., Nov. 3.—That some other man than his client gave Avis Linnell the poison from which she died, was the assertion today of John L. Lee, Jr., of Lynchburg, Va., senior counsel for Rev. Clarence V. T. Richeson, pastor of Immanuel Baptist Church, Cambridge, who is under indictment by the grand jury charged with murder. Before Mr. Lee left Boston for his home today to clear up some business affairs he discussed the Linnell murder briefly.

"Mr. Richeson is innocent," he said, "of that I am convinced. My talks with him, my own observation of the case, and my conferences with counsel have opened up a way by which I shall eventually free him."

Beyond saying that he hoped to accumulate enough evidence to satisfy a jury of the guilt of another man, Mr. Lee would not speak of the plans of the defense.

The remarks of the attorney were taken as indicating that the defense would not advance the suicide theory to explain the girl's death.

The first authentic protestation of the Rev. Mr. Richeson's innocence of the murder of Miss Linnell was made public today when the text of his letter resigning the pastorate of Immanuel Baptist Church was given out. The letter, dated November 1st, and addressed to Charles F. Cummings, clerk of the church, is as follows:

"My Dear Sir:—

"I beg to herewith tender my resignation as pastor of Immanuel Church. Strong in the consciousness of my innocence and firmly persuaded that God in His own good time will lift this burden from me, I nevertheless feel that I should not permit the shadow thrown across my life to darken the religious welfare of my church and its people, whom I love. I, therefore, deem it my duty to place the church in a position to select my successor. With my heartfelt thanks for the many kindnesses shown me by each and all of the members of my church, I am, "Sincerely yours,

"CLARENCE V. T. RICHESON."

GREENSBORO ICE COMPANY

New Gate City Enterprise — Wake Forest to Have Newspaper

(Special Star Correspondence.)

Raleigh, N. C., Nov. 3.—There was a charter issued today for the Artic Ice and Coal Co., Greensboro, capital $225,000 authorized and $30,000 subscribed by H. E. Cartland, G. W. Patterson and J. W. Landreth, for general coal and ice business.

Major W. A. Graham, commissioner of agriculture, returned last night from New Orleans and left today for Greenville to attend the Pitt county fair. He says the New Orleans conference for consideration of the cotton situation was surprisingly successful throughout the widespread beneficent influence that the action and views of the conference has had and is having on the cotton holding interests of the cotton States.

A new county weekly newspaper is to be started for Wake county at Wake Forest, the seat of Wake Forest College. Mr. W. N. Keener is to be th editor and manager. He has for the past year been editor of the Apex Journal, which he has directed quite successfully.

Washington Nov. 2.—The. Taylor system of scientific management probably will be installed in the government arsenels. Secretary of War Stimson today expressed the view that this system will work to the welfare of the government and the workmen. He based his opinion on a report of chief of ordinance Crozier on the War Department experiences with the system.

OUTLINES.

The jury in the McRee case at Opelousas, La., were unable to come to a verdict after deliberating 24 hours and 50 minutes, and resulted in a mistrial. The defense will at once make a motion to secure bail for Mrs. McRee——John L. Lee, the celebrated criminal lawyer, of Lynchburg, who will defend Rev. Richeson, charged with poisoning his former sweetheart, Miss Avis Linnell, states, after talking it over with the prisoner, that he is confident that the young clergyman is innocent of the charge, and already he has a way open to clear him.——Mrs. Vermilya, the Chicago woman suspected of poisoning eight people during the last 18 years, was yesterday formally charged with murdering a Chicago policeman last week, whose stomach was examined and found to be poisoned with arsenic. She is ill with pneumonia, but a strong guard has been placed over her——A registered package containing $20,000 has been stolen in Lynchburg, and the postal inspectors are now investigating the matter, which lays between two postal clerks——President Taft will doubtless vote in his home city after all, as he has changed his former plans and will go to Cincinnati Sunday night and appear before the election board in that city.——New York markets: Money on call steady 2 to 2 1-2 per cent., ruling rate 2 1-2, closing bid 2, offered at 2 3-8. Spot cotton closed dull, five points higher, middling uplands 9.45, middling gulf 9.70. Rosin easy. Turpentine quiet. Flour unsettled by the wheat break and closed rather easy. Wheat steady No. 2 red 97 1-4 elevator export basis and 97 3-4 f.o.b. afloat. Corn, spot dull, export No. 2, 80 old f.o.b. afloat. options nominal.

PRESIDENT TAFT VOTES AFTER ALL

Will Go to Cincinnati Sunday Night and Appear Before the Election Board.

EATS BREAKFAST WITH FAMILY

For the First Time in Ten Weeks—Secretary Hilles Will Arrive in Hot Springs Today With Data for Address.

Hot Springs, Va., Nov. 3.—President Taft will get a vote at the Cincinnati and Hamilton county elections after all. For two weeks he did not know whether he would have an opportunity to cast a ballot in his city next Tuesday.

The President sent his registration papers to Cincinnati too late and the election board decided he could not vote unless he appeared in person before next Monday night and swore that he was a qualified elector. Mr. Taft had intended leaving Hot Springs Monday night, arriving in Cincinnati early election day, but today he changed his plans. As a result he will leave here Sunday night, make the necessary affidavit before the election board Monday and be prepared on Tuesday to register his preference not as the titular head of the Republican party, but as a citizen of Ohio.

Mr. Taft arrived at Hot Springs early today. Mrs. Taft and Miss Helen Taft arrived here five days ago, met him at the station and he had breakfast with them for the first time in ten weeks.

With the arrival in Hot Springs probably tomorrow of Secretary Hilles, Mr. Taft will have data which he expects to use in his third annual message to Congress. Mr. Hilles left the President at Washington last night intending to secure information from the departments for incorporation in the message which friends of Mr. Taft believe will be the most important he has had to write. An actual start upon it may be made at Cincinnati Monday, but the final draft will be made, of course, in Washington, at Mr. Taft's return November 12th. According to persons close to the President some of the important questions to which he will call the attention of Congress are the tariff, trusts, second class postage rates, stock watering, and over-capitalization, conservation, currency ferom and navy reorganization.

The peace treaties for which the President has spoken often on the trip West, will not be referred to in the message, it was said today, since they are now before the Senate. A special message to that body alone is believed to be in prospect later.

The President's views on tariff revision have been exchanged frequently. He has promised revision of the wool and cotton schedules of the present tariff, so far as he can bring it about, if the tariff board so recommends after its investigation of the wool and cotton industries. The board's report, it became known today, will be placed in the President's hands shortly.

His Pittsburg speech showed that the President was opposed to amendment of the Sherman anti-trust law and indicated also that he did not believe it should be repealed and it is understood the message will discuss the trust question at length. It was said the President will again offer to Congress his Federal incorporation bill drawn up by Attorney General Wickersham and offered to Congress two years ago, but since untouched and practically unreferred to.

The report of the commission investigating second-class postage rates, of which Supreme Court Justice Hughes is chairman, and that of the Railroad Securities Commission, investigating stock watering and overcapitalization of which President Hadley, of Yale, is chairman, will be at the President's disposal within a few days and it is practically certain that he will pass on to such recommendations as these committees may make.

His trip West and the trip of Secretary of the Interior Fisher to Alaska are counted on to make conservation in the public domain and of Alaska topics to be discussed freely in this message. Navy organization and currency reform will be given attention as well and it is possible that other subjects will be dealt with.

The President lost little time getting out on the golf links today. Mrs. Taft, who has been taking long walks since her arrival here, went around with him and watched the play. Forty-seven days on the road, it was quickly apparent, had not improved the President's play.

FIGHTS CIGAR STORE INDIAN

Sioux Brave Resents Fancied Insult —Returned to Reservation

Chicago, Nov. 2.—Joe Mexicana, a Sioux Indian, who had been viewing the sights along State street yesterday, believed that he had been insulted by a wooden Indian in front of a cigar store.

He crept around the block and came upon his opponent from the rear, leaped on his back and began to pummel him. When the fight was stopped by a policeman the wooden Indian and the Sioux were rolling on the sidewalk.

Joe and his companion, Big Bear, were shipped back to the Pine Ridge reservation in South Dakota last night.

COMPLETE SUMMARY OF TREATY

Concerning Morocco Arranged by Foreign Secretary Herr Von Kiderlen-Waechter—England Has Not Interfered

Berlin, Nov. 3.—In making public tonight a complete summary of the treaty concerning Morocco arranged by foreign Secretary Herr Von Kiderlen-Waechter, an the French Ambassador, M. Cambon, the foreign office issued the following statement:

"The German government believes that both parties can be in accord over the contents of the new treaty. It will have a calming effect not only upon conditions between Germany and France, but also upon the general political situation.

Germany stands at the conclusion of this treaty in the same position as to French undertakings in Morocco as does England. It is especially emphasized that England has not interferred in the negotiations. The statement then summarizes the treaty, the text of which will be signed Monday morning at Berlin and Paris.

With the news of the conclusion of the controversy comes an announcement that Emperor William has accepted the resignation of Dr. Von Lindequit, Secretary of State, for colonies. This resignation is a significant symptom of the unpopularity of the bargain within as well as outside the government.

The definition of France's predominant position in Morocco occupies three of the 14 articles of the treaty. Next nine contain a long series of guarantees and precautions to secure citizens of all countries equal commercial and economic opportunities in the country under French domination and close up all imaginable openings for favoritism.

France obligates itself to see that the various directors of the Moroccan National Bank which is an international institution, represent the bank on the permanent customs committee changing yearly so that other powers may get an insight into Morrocan customs affairs. The directors of the bank will inter-change similarly in the holding of membership on the board of public contracts.

France undertakes to have the Moroccan government permit foreign owners of mining and farming lands and of manufacturing establishments without respect to their nationality, to build railways connecting their concerns with State roads or seaports.

A yearly report of the State railways must be issued after examination by the censors of the National Bank who also will have the right to demand additional information from the managers. Troubles between foreign citizens are to be educated by a board of arbitration consisting of the consuls of the countries involved. When they are unable to agree they shall appeal to the French consul who will co-operate with them in naming a board of arbitration. This process also will apply to grievances against the State and the French.

In the Congo changes are more limited than were first exacted. Germany will get only from four to seven miles of the Congo river, sufficient to establish a steamer trading, and cedes a small triangle between the Logone and Shari rivers, south of Lake Tchau. Togoland is not mentioned in the treaty.

WILL START INQUIRY

President Jno. T. Bush, of N. Y. National League Gives Out Letters

Chicago, Nov. 3.—President John T. Bush, of the New York National League baseball club, gave out copies of very pointed letters he had exchanged with B. B. Johnson, president of the American League, relative to the alleged scalping of tickets to the world's series of baseball games and particularly relating to the alleged sulpability of the New York National League team in the matter.

In his letter to Mr. Bush, President Johnson stated that when he arrived in New York the night preceding the day of the opening game, he was confronted by newspaper men who demanded to know what action would be taken by the Commission relative to the ticket scalping scandal. Reviewing conditions as he found them, he says to Mr. Bush: "If there have been wrong doing some one in your employ has been culpable and it devolves upon you to explain."

In his reply Mr. Bush reminds Mr. Johnson that in a letter dated October 28th, he told the former to start an inquiry at once. He goes on to say that the New York club does not care to sit as judge or jury in its own case.

A COLLEGE POSTOFFICE

Established at Trinity for Benefit of the Students

(Special Star Correspondence.)

Trinity College, Durham, N. C., Nov. 3.—The United States postoffice sub-station was opened for the first time yesterday at noon. Postmaster J. A. Giles, of the Durham office, and Postoffice Inspector W. F. Chester, of Washington, were present to see the first business transacted.

The office is in the book room on the ground floor of the Academic building, where it will be until the new west dormitory is completed, when permanent quarters will be established in that building. The office is in the care of Jesse R. Bristow, who has been employed at the city postoffice for several months. The college authorities it seems, did not want a college chap to handle the postoffice business, for it is understood from a reliable source that Postmaster Giles was inclined to give the position to some member of the student body. A college boy could not devote sufficient time to the work and keep up his studies as well.

IN THE HANDS OF REVOLUTIONISTS

"Military Government of China" Has Taken Over City of Shanghai.

PRACTICALLY NO RESISTANCE

Admiral Sah Was Called on to Surrender by Revolutionists—The Chief Official Quickly Disappeared.

Shanghai, Nov. 3.—Except for the foreign concessions Shanghai tonight is entirely in the hands of the revolutionists who captured the city late this afternoon. There was practically no resistance, only a few shots being fired. All the Chinese soldiers have joined the rebels and the police and firemen apparently are sympathizing with them, for they are wearing white badges on their arms. After taking over the arsenal, the rebels burned the Taotais Yamen in the native city.

The Associated Press correspondent this afternoon covered the entire outlying section of Shanghai, but did not discover a single instance of disorder. Even in the native city, complete ordere prevailed.

Every courtesy is shown foreigners. The soldiers, police and firemen are continuing on duty. Shops are closed tonight. While the action of the rebels was expected, the movement was made quickly. Following a slight disturbance in the northern section of the city, notices were posted throughout the native city announcing that the "Military government of China" had taken over Shanghai. It warned the populace against disorder.

The arsenals, where recently there had been the greatest activity preparatory to assisting the up-river forts and providing ammunition for Admiral Sah, was called on to surrender by the revolutionists. The chief official quickly disappeared, but a few other officials continued to hold it without, however, any show of force. A few shots were fired, but the revolutionists warned the officials remaining that they intended to take the arsenal even if they had to fight for it. None of them seemed willing to test the strength of the rebels in combat and quietly evacuated.

It is understood that one reason for the revolutionists in taking Shanghai today was that two Norwegian vessels had been loaded at the arsenal during the last two days with ammunition for Admiral Sah. These vessels succeeded in getting away.

Quickly following the demands for the surrender of the arsenal came an attempt to cut the wires of the Nanking-Shang Hai Railway which was frustrated personally by A. W. I. Pope, general manager of the company.

Mr. Pope found an armed revolutionist lying into the station and disarmed him. Then he telephoned the British consul that the railway property was threatened and the British volunteers of Shanghai were called out and mounted guard over the station and outlying properties. This action has caused much comment, because this section of the railway is entirely outside the concession. The apparent breach of neutrality is defended because the British bondholders claim a prior right in the railway property. The revolutionaries say they were prepared to maintain order and while they intended to seize the railway they did not plan to destroy it. Therefore, they regard the British consul's action in calling out British volunteers as the first break of neutrality and its effect may be far reaching.

Through the night seventy armed Britishers stood guard over the British Railway property while on the other side of the road an equal number of uniformed Chinese police were drawn upon in behalf of the Chinese government to maintain order. It is said that the British guard is only temporary and that the volunteers will be withdrawn.

During the night there was desultory firing in the city and two or three persons were killed.

It is estimated that more than two thousand volunteers were included in the government forces that went over to the revolutionists when they took the city. The rebels will ship machine guns and ammunition from here to Hankow.

Capture Imperial Forts

Wu Sung, Province of Kiang Su, Nov. 3.—The imperial forts here have bee entirely taken over by the rebels. There was no disturbance and the telegraph lines have not yet been interrupted.

Wu Sung is ten miles north of Shanghai.

MR. CALDWELL'S CONDITION

Spends More Restful Night—Brighter Yesterday

Charlotte, N. C., Nov. 3.—The friends of Mr. J. P. Caldwell will be relieved to learn that he spent a restful night and slept well Thursday night. A long distance message from his bedside at Morganton this morning brought the pleasing intelligence that his condition was easier this morning. He experienced less difficulty in breathing and was brighter. The physicians, however, hold out no hope for any permanent improvement.

DEVELOPMENTAL ENTERPRISES

Colonization, Timber and Water Power Operations—Other Announcements of the Past Week as Reported to Record.

(Special Star Correspondence.)

Baltimore, Nov. 2.—The Manufacturers' Record reports that the purchase of big tracts of land for colonization purposes and timber operations and the development of water-power enterprises continue to be the most striking features of the material upbuilding of the South.

A company capitalized at $5,000,000 recently organized by P. H. Fitzgerald, of Indianapolis, who years ago through the founding of the town of Fitzgerald, Ga., began a big development in that section of the State, proposes to establish some large saw mills, build a railroad to cut the timber on 150,000 acres of land near Mississippi, and follow this with colonization work. Chicago people have purchased 30,000 acres of cut-over pine lands in Mississippi and will colonize the tract, while an Ohio company has bought 50,000 acres of cut-over pine lands in Alabama and will utilize the pine stumps for the manufacture of turpentine and later colonize the land.

H. M. Byllesby & Co., of Chicago, who, with associates, are developing about 100,000 hydro-electric horse power in southwest Virginia, at an ultimate estimated cost of about $25,000,000 now have engineers at work making surveys for the development of hydro-electric power at Cumberland Falls, Ky., at a reported cost of about $5,000,000.

Among other industrial enterprises of interest reported during the week are the following:

Railroad Metallic Tie Co., Princeton, Ky., organized with an authorized capital of $1,000,000, to manufacture metallic railroad ties.

Bon Jellico Coal Co., Knoxville, Tenn., was organized with $100,000 capital and will develop 1,250 acres of coal land near Williamsburg, Ky., installing mining equipment for capacity of from 400 to 500 tons per day.

Little Sycamore Oil & Gas Company, Weston, W. Va., was incorporated with $100,000 capital.

Quinn Investment Co., Joplin, Mo., was incorporated with $300,000 capital and will develop 7,871 acres of oil and mineral land.

Wilmington, N. C., Marine Railway Co., awarded contract to construct marine railway at a cost of from $50,000 to $75,000.

York Coal & Coke Co., Ashland, Ky., was incorporated with a capital stock of $250,000 by John F. Hagor and associates of Pikeville, Ky.

Carolina Light & Power Co., Raleigh, N. C., will install additional machinery in its electric light plant at Sanford, N. C., including a 500 kilowatt transformer and three-phase lightning arrester, increasing the voltage from 35,500 to 66,000.

Okmo Mining Co., Bartlesville, Okla., incorporated with a capital of $100,000 by L. A. Rowland and others.

Ozark Power Co., St. Louis, Mo., awarded contract for the construction of a reinforced concrete dam 615 feet long and 43 feet high; will also construct power house for five 1,200 horse power units.

Southwestern Mining & Development Co., El Paso, Tex., was organized with $2,500,000 capital stock to promote the development of mining properties.

Bellevue Oil & Gas Co., Belleview, Texas, was incorporated with a capital of $25,000 and leased 25,000 acres of gas and oil land for development.

Central Georgia Gas Co., Macon, Ga., has applied for charter with a capital stock of $750,000; is reported as to erect gas plant at a cost of from $250,000 to $500,000.

Ruby Coal Mine & Brick Co., Oklahoma City, Okla., will develop 1,100 acres of coal and shale property; establish brick plant of 40,000 daily capacity and developing coal mine to a daily capacity of 500 tons.

The Granite Co., Eagle Rock, N. C., was incorporated with $100,000 capital stock to develop granite deposits on 715 acres of land.

White Adding Machine Co., Nashville, Tenn., was incorporated with a capital of $400,000 and will erect plant for the manufacture of adding machines.

Acres Concrete Post Co., Oklahoma City, Okla., was incorporated with a capital of $30,000 to manufacture concrete posts.

American Dartium Steel Castings Co., Kansas City, Mo., was incorporated with $150,000 capital and will erect steel castings plant of 15 tons daily capacity.

Dominion Iron Works, Bristol, Va.-Tenn., will increase capital from $50,000 to $150,000 for the enlargement of its plant, etc.

Oriskany Ore & Iron Co., Covington, Va., is reported as to build 125-ton blast furnace at Reusens, Va.

J. J. Newman Lumber Co., Scranton, Pa., awarded contracts to rebuild its lumber mill recently burned at Sunrall, Miss.

Culpepper Exum, of Birmingham, Ala., and associates awarded contracts at about $250,000 to erect proposed sulphuric acid plant of 35,000 tons annual capacity.

RECEIVER APPOINTED.

For Pitt Brothers & Co., Well Known Firm of Baltimore.

Baltimore, Nov. 3.—A receiver for Pitt Bros. & Co., one of the oldest and best known grain firms here, was appointed today. The liabilities aggregate $168,000 with four of Baltimore's largest National banks involved. On the testimony of Henry B. Wilcox, president of the First National Bank, and J. A. Hughes, vice president of the National Bank of Baltimore, the grand jury presented Pembroke Pitt, senior member of the grain firm, on the charge of forging certificates or bills of lading. It is alleged Pitt obtained nearly $500,000 in this manner and a leading New York bank is said to be involved in the alleged forgery. An indication of the extent of the alleged forgeries is the fact that Judge Duffy fixed bail at $25,000 in the one case in which Pitt was presented and it was said that many more presentments could be found against him.

It begins to look as if Italy had lightheartedly stirred up a hornets' nest for the whole of Europe—New York Tribune.

WILSON LOOMS LARGE.

Washington Correspondent of Milwaukee Paper Sounds His Praises.

Milwaukee, Wis., Nov. 4. — The Washington correspondent of the Milwaukee Journal sends the following:

The advancement made by Woodrow Wilson as a national political figure, has given a distinct surprise to practical politicians. "The college professor in politics" has come to be a joke, but Gov. Wilson has shown an adaptation for politics that has discounted the old theory.

The standing query is: "Where did Dr. Wilson learn his practical politics?" It is admitted that up to this time he has shown more skill and his managers have shown more capacity in directing his Presidential campaign than has been displayed by any other candidate opposing him or by the managers of any other boom. But the reply to the standing query can be found in the history of Princeton University under President Wilson.

He was a teacher of politics as well as of political economy. He called the attention of the students of Princeton to political conditions while delivering lectures on political theories.

It is related here that when a class of students in politics entered Dr. Wilson's recitation room he ordered the doors closed. The class went into executive session and every student was in honor bound not to reveal what occurred behind those closed doors. Then the current newspapers were produced and the political news of the country examined. It is said the frankness with which men and motives were dissected in that class room was little short of appaling.

This is how it happened that when he was asked to run for Governor of New Jersey he was able to designate the Democrats with whom he would not collaborate as a condition precedent to accepting the nomination. And undoubtedly he was just as familiar with the political situation in Ohio or Indiana as he was with that of New Jersey. It is alleged that he could point out the servants of private interests connected with the government of any of the States, if he chose to do so, or if he found it necessary.

Through these intimate studies of American politics the students who sat under Dr. Wilson's teachings came to have a great affection for him. It is the Princeton graduates who laugh loudest when somebody asks if Gov. Wilson is not at heart a reactionary and a lover of the over-rich. They say he never had a reactionary pulse beat in his life, and they point in proof of this to the unceasing war he conducted during his entire service as president of Princeton to democratize the institution—a war in which he was compelled to oppose some of the richest and most autocratic men in the United States.

CONCERNING MAT WALKER

Letter From His Father in Florida—Rumors Discredited

To the Pender Chronicle, Burgaw, N. C.:

Monticello, Fla., Oct 21.—I ask space in your columns to refer to an article published in the Wilmington Star of recent date headed Settled Life Insurance. This article refers to Mat A. Walker and a claim based upon his suicide at Wrightsville Beach. By suggestion it traces him to Jacksonville, Fla., and into a home of an uncle at that place.

Now, as to the facts in the alleged report of the detection there are none whatever. The aforesaid Walker was my sister's son. He has no uncle living in Jacksonville, Fla., and has never had. He has three uncles living in Monticello, Fla., and these are Charles W. Henry, James F Henry and the writer. We have lived here in Monticello, Fla., for nearly 50 years and are the only uncles of the aforesaid Walker living.

If the detectives made the alleged report it is false and bears the stamp of its falsehood upon the face. How does he account for the failure to apprehend the alleged Walker when it is reported a reward of $500 is offered by brother-in-law Rowe.

I confess I do not understand the situation clearly and as yet cannot reconcile certain inconsistencies in this sensational article, but to me it is a mass of sensational hearsays and improbable happenings that are a discredit to the paper that publishes them.

JOHN M. HENRY,
Mayor of Monticello, Fla.

Band in Fayetteville.

Yesterday afternoon's Fayetteville Observer says: "The Marine Band arrived here at noon from Wilmington. They were met at the station by a delegation of citizens, in recognition of the fact that the band is a representative part of our great National government. They gave a matinee performance in LaFayette Theatre at 2:30 this afternoon, to a good audience."

Downward Course

Fast Being Realized by Wilmington People

A little backache at first.

Daily increasing till the back is lame and weak.

Urinary disorders quickly follow.

Diabetes and finally Bright's disease.

This is the downward course of kidney ills.

Don't take this course. Follow the advice of a Wilmington citizen.

Miss Maggie Rivenbark, 105 Dock street, Wilmington, N. C., says: "You are welcome to continue the use of my former public endorsement of Doan's Kidney Pills, for they gave me lasting benefit. I value this remedy highly in return for what it did for me. There was a constant, dull pain in the small of my back and some days I could hardly get about the house. The kidney secretions bothered me and I had but little strength or energy. I used several tonics and remedies, but nothing gave me relief until I began taking Doan's Kidney Pills which were procured at Bellamy's Drug Store. They proved to be just what I required and it did not take them long to make me well."

For sale by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

AUTOISTS INJURED.

Case Car Driven at South Carolina Fair Badly Hurt.

Columbia, S. C., Nov. 3.—Joe Jagersberger, of Racine, Wis., driving a Case factory car at 67 miles an hour in the State fair races here today, was badly injured when his machine threwy a tire on a turn of the unbanked track and went into the outer fence. A leg was broken, his shoulder injured and severe facial contusions inflicted. He may lose an eye and it is feared there are internal injuries. Jagersberger was rushed at once to a hospital.

Jagersberger is one of a team of eight drivers and machinists with three machines entered in the races by the J. I. Case Company, of Racine, Wis.

Examination at the hospital showed that the fracture of the right leg might necessitate amputation at the knee. Jagerberger was hurt while trying out the unfamiliar track just prior to the first scheduled event. The machine turned over twice, hurling Jargersberger and mechanician Phefster through the fence and came to rest right side up and undamaged. Phefster was bruised about the face. Jagersberger will recover the surgeons think, though it now seems likely that he will lose a leg.

His right leg was broken and shattered between the ankle and the knee, his shoulders were injured internally and a portion of the face above the eye was lacerated. He never lost consciousness and was able to talk while being taken to a local hospital. It may be necessary to amputate the injured leg, so badly are the bones broken, but a careful examination will be made to determine the exact extent of his injuries.

The injured driver is a powerfully built young man, well muscled and possessing a strong constitution. He showed unusual calm and bore his suffering without murmur. The other members of the Case squad have made every arrangement for the injured man to receive the best medical attention and nursing.

This is the third accident that has occurred on the frair ground track. Young Russell Lawson was injured so badly that he died several months later, when his car, a Ford, went through the fence while he was trying out the car before the races two years ago. Eddie Jenkins also lost control of his car and went through the fence at the same place where the Lawson accident occurred. Mr. Jenkins was not injured.

UNIVERSITY DORMITORY

Conference of Governor and Council of State—Marine Band

(Special Star Correspondence.)

Raleigh, N. C., Nov. 3.—Tomorrow the trustees of the State University and the Governor and Council of State will confer with a view to taking action on the matter of expending $200,000 State funds on the erection of much-needed dormitory buildings at the University. There was an appropriation of $200,000 made by the last Legislature with the proviso that it should be expended when the revenue of the State justified it. But the need is so great for the additional dormitory room and the ability of the State through increased taxes next year is so certain that it is being urged that the State borrow the mony and let the work on the building get under way without further delay. The dormitory capacity of the University now is only about 300 and there are 500 or more boarding out in Chapel Hill. The development and growth of the institution is being greatly hampered by this lack of dormitory accommodations.

The United States Marine Band delighted an immense audience in Raleigh's big new auditorium tonight with a concert that was a musical revelation and a veritable treat for all. There were people here from a number of the neighboring towns to hear this famous band.

Raleigh has secured a branch of the Durham Hosiery Mills Co., through the acquiring of the mill in the Myatt building, South Blount street. The plant is being put in order and is to be used especially for looping work. It will be managed from the Durham office under the direction of Mr. Claiborn M. Carr.

$20,000 STOLEN

Postal Inspectors Are Looking for Packages Stolen from Mails

Lynchburg, Va., Nov. 3.—A registered package disappeared from the United States mail some time last Friday night and postal inspectors are now searching for the $20,000 contained in the package.

The money was consigned by a Bluefield, W. Va., bank to a correspondent in New York city, though the name of the shipper or consignee are not known. From unofficial sources it is learned the package came to Lynchburg last Friday night. It was delivered to the local transfer clerk who in turn delivered it to a clerk who soon afterward discovered that it had been tampered with.

It is understood that the matter lies between the two postal clerks and the local transfer. The pouch did not pass through the Lynchburg postoffice.

CHILD STRUCK BY AUTO

Raleigh Physician Broke Leg of Little Girl Near City

(Special Star Telegram.)

Raleigh, N. C., Nov. 3.—This evening while Dr. W. C. Horton was answering an urgent call two miles from the city his automobile ran down the little daughter of D. Shelby Swain, of the Raleigh postoffice, and broke her left leg just above the ankle.

There were forty or more school children with a teacher, walking in the country road. All made way for the machine except the two who were swinging on behind a wagon just ahead. Dr. Norton thought these would retain their hold on the wagon but just as he came up the Swain child turned loose and stepped to one side, right in front of the machine. Dr. Horton turned sharply but struck the child. His machine then ran into a ditch alongside.

SURVIVES 15,000 VOLTS

Plaster Dragged From Wire Sparking Like Fireworks

Lancaster, Pa., Nov. 2.—Fifteen thousand volts of electricity passed through the body of Charles M. Ashton but he will recover from the shock.

Ashton is a plasterer and was at work at the city waterworks, when he accidentally came in contact with a high tension wire.

BACK TO ANNAPOLIS.

Two Aviators—Lieutenants Get Back Home in Hydro-Aeraplane.

Annapolis, Md., Nov. 3.—The naval aeroplane Triad, manned by Lieuts. Ellyson and Towers, descended in the naval academy aviation field a little after 5 o'clock this afternoon, completing the flight from Point No Point, Md., 70 miles to the south, in one hour and 20 minutes.

At the start the aviators ascended 700 feet, but owing to the intense cold were obliged to drop to about 150 feet which altitude they maintained although still suffering from the cold. The Triad sailed from Fort Monroe for Annapolis last Monday, but got no farther than the mouth of the York river, Va., the same day on account of burned out batteries. The flight was resumed yesterday, but on account of engine trouble the aviators were obliged to descend at Point No Point on the Chesapeake Bay, near the lower end of Southern Maryland.

ADVISORY BOARD MEETS

And Plans to Raise Hundred Thousand Dollar Endowment

Durham, N. C., Nov. 3.—At the meeting today of the advisory board of the National Religious Training School, plans to raise a hundred thousand dollar endowment were begun with three thousand secured on the spot and the other to be secured by small church subscriptions.

Judge Pritchard, of the United States Circuit Court, as chairman of the board, presided and General Julian S. Carr, treasurer of the school, gave the first five hundred dollars. Two thousand were raised by the colored business men.

All outstanding indebtedness was ordered cleared away by the first of the year and Judge Pritchard announced that a number of gifts from Ohio are forthcoming.

Cold in Fayetteville.

Yesterday afternoon's Fayetteville Observer says: "The weather was of the genuine Winter sort this morning. The sun rose bright and clear, and there was little wind, so that the atmosphere was fine and bracing, but cold for all that. Early risers found ice on sheets of still water, while icycles depended from water tanks, etc. As late as 9 o'clock the thermometer was down to 39."

A man must stand erect, not be kept erect by others.—Marcus Aurelius.

Soda crackers are extremely sensitive to moisture.

Before the advent of Uneeda Biscuit the only persons who ever tasted fresh, crisp soda crackers were the people in the bakeries.

Imagine their trip from bakery to your table; exposed to air and moisture—kept in grocers' boxes and finally in a paper bag on the shelf in your pantry. Could they be the same as they were the day they were baked?

Now that we have Uneeda Biscuit—we have perfectly baked soda crackers—perfectly kept.

No moisture can reach them—no contaminating influences can affect their flavor—their goodness is imprisoned only to be liberated by you for you when you open the package.

Always in the moisture proof package. Never sold in bulk. 5 cents a package.

NATIONAL BISCUIT COMPANY

The Rayo Lamp

The Lamp That Saves The Eyes

Children naturally never think of possible strain on their eyesight when poring over a fascinating book.

It is up to you to see they do not ruin their young eyes these long evenings by reading under a poor light.

The Rayo Lamp is an insurance against eye troubles, alike for young and old.

The Rayo is a low-priced lamp, but it is constructed on the soundest scientific principles, and there is not a better lamp made at any price.

It is easy on the eye because its light is so soft and white and widely diffused. And a Rayo Lamp never flickers.

Easily lighted without removing shade or chimney; easy to clean and rewick. Solid brass throughout, with handsome nickel finish; also in many other styles and finishes.

Ask your dealer to show you his line of Rayo lamps; or write for descriptive circular to any agency of the

DID ROBBERY PRECEDE FIRE

Destructive Blaze at Granite Quarry. Fireman Found Unconscious—Suits in Court—Masonic Home for Aged.

(Special Star Correspondence.)

Greensboro, N. C., Nov. 3.—The mysterious fire at Granite Quarry, Rowan county, Wednesday night shortly before 11 o'clock, did damage estimated at more than $10,000. Among the building destroyed wos the Methodist church at that place, which was erected at a cost of more than $2,000. The church authorities carried no insurance and the loss is total.

The residence and store of T. J. Lyerly and the residence of George Dry were also destroyed before the fire burned itself out. Mr. Lyerly carried about $2,500 insurance. His net loss will be in the neighborhood of $3,000. The fire originated in Mr. Lyerly's store. Parties entering the store found the front door open and the combination to the safe knocked off and this indicates robbery and possibly incendiarism.

Steve S. McFarland, engineman for the Steamer Fire Company, was found unconscious in the headquarters bath room late yesterday afternoon and grave fears were felt by his friends for several hours. McFarland is now reported to be resting comfortably and it is said will recover. When found McFarland was lying prone upon the floor, though examination showed that his condition was not the result of asphyxiation. Dr. Cole ascribes a very unusual and acute attack of stomach trouble as the cause.

The Southern Railway Company won a victory in the Superior Court of Guilford county yesterday afternoon when the jury in the $5,000 personal injury suit of John Harris against the corporation returned a verdict finding for the defendant. Harris was injured on the railroad here some time ago and subsequently brought suit for damages, alleging that the defendant company or its employes were negligent. The jury found otherwise. Another interesting case now on trial is that of J. R. Pitts and S. M. Maddox against the Public Service Corporation, operators of the electric car system here, for $500 damages for alleged injury to an automobile. The plaintiffs allege that a car of the defndant company struck their automobile and very nearly demolished it.

Dr. F. P. Venable, president of the University of North Carolina; Prof. McKee, also of the University, and Dr. Neal Anderson, of Winston-Salem, came to Greensboro yesterday to meet Rev. Charles E. Raynall, of Statesville, and together with Rev. Melton Clarke, of this place, to formally tender the Statesville minister a call to become pastor of the Presbyterian church at Chapel Hill, and to urge upon him an acceptance of the call. Rev. Mr. Raynall preached at Chapel Hill a short time ago and last Sunday night the congregation of the church unanimously voted to tender him a call to become its pastor.

The effects of the revolution in China are becoming evident in cotton circles, and local cotton men are receiving indications of a very disordered trade. J. E. Latham, of the firm of Latham & Co., recently incorporated to deal in cotton with a capital of half a million dollars, today received two telegrams from New York showing that private reports from Shanghai revealed the adoption of resolutions there authorizing the repudiation of all forward contracts on the ground that the trade has been disordered by the revolution. Such action, Mr. Latham believes, is going to greatly disorganize the cotton business and unless strenuous steps are taken immediately he fears a still greater drop in prices.

Grand Master R. N. Hackett, L. M. Clymer and J. F. Ange, the contractor, visited the site of the Masonic Home for the Aged and Infirm, which is being built here, yesterday afternoon. The site for the home is a splendid one, being just within five minutes' walk of the car line. Grand Master Hackett expressed great pleasure with the progress and architectural appearance of the home, which is now built up to the second floor. Approximately 165,000 brick have been laid, more than half of the number to be used in the three-story structure.

Armed with warrant and requisition paper Deputy Sheriff John Weatherly left this morning for Columbia, S. C., for the purpose of bringing back W. F. Alexander, a Georgian, wanted here for embezzlement of $100 from the Vick Chemical Company. Alexander, after much correspondence secured a position as traveling salesman with the Vick people and was sent $100 as his first allowance for expenses. Since that time the relations were cut by Alexander and a quiet investigation revealed the fact that he had worked the same game before. As a matter of protection and warning to others L. Richardson, president of the Vick Chemical Company, secured the arrest of Alexander and he declares he will prosecute him to the full extent of the law.

BOY'S PECULIAR DEATH.

Wood Thrown From Wagon Killed Lad Near Dover.

(Special Star Telegram.)

Newbern, N. C., Nov. 3.—A telephone message received here tonight from Dover stated that Reisch, the seven-year-old son of Mr. R. A. Richardson, who lives about three miles from that place, had been killed this afternoon in a very peculiar manner.

One of Mr. Richardson's laborers had brought a load of wood up to the residence and was throwing it over the fence. The lad passed by during the time that he was engaged in doing this, and was struck on the head by a heavy stick of wood. Death resulted within half an hour.

A Father's Vengeance

would have fallen on any one who attacked the son of Peter Bondy, of South Rockwood, Mich., but he was powerless before attacks of Kidney trouble. "Doctors could not help him," he wrote, 'so at last we gave him Electric Bitters and he improved wonderfully from taking six bottles. It's the best Kidney medicine I ever saw." Backache, Tired Feeling, Nervousness, Loss of Appetite, warn of Kidney trouble that may end in dropsy, diabetes or Bright's disease. Beware: Take Electric Bitters and be safe. Every bottle guaranteed. 50c. at R. R. Bellamy's.

DISCIPLES OF CHRIST.

State Convention Adjourns at Ayden, N. C.—Farmville Next.

(Special Star Correspondence.)

Ayden, N. C., Nov. 3.—The State convention of the Disciples of Christ reached its climax and conclusion on Thursday afternoon here in time for the departure of delegates on the northbound train which took away the largest numbers of visitors. Grant K. Lewis, of Cincinnati, offered a most fervent petition for blessings to abound towards the good people of Ayden, for the safe return home of delegates and for the work and workers in every field, as the delegates were waiting at the station for the train. Then followed wave after wave of song until even strong men wept for joy and all went away happy.

After the addresses of Monday and Tuesday nights and the business sessions of the ladies on Tuesday, the business session of the North Carolina Christian Missionary Convention began Wednesday morning. This is an incorporated body under the laws of North Carolina, having an executive board of nine members, three of whom are elected each year for three years. The convention elects from this nine annually a president, vice president, recording secretary and a treasurer. The Board chooses a corresponding secretary. The business began with reports from these officers. J. W. Hines, of Rocky Mount, is president. He made general report of the mission work done during the year with recommendations for the future. H. C. Bobbitt, the successful pastor at Rocky Mount, is corresponding secretary. He reported about $2,500 received for use in helping various mission points. W. C. Manning, of Williamston, N. C., is clerk of the board and has shown great interest and skill in financing the affairs of the board. He reported the details of securing and handling several loans and how there are being successfully paid. L. J. Chapman, the treasurer, of Grifton, reported in detail the cash received and paid out, making a good showing for the year.

All of these gentlemen have served without salary and paid their own expenses in attending several meetings of the board. All of the officers were re-elected for the new year. All obligations for the year have been promptly met and a small debt refunded and almost paid.

C. Manly Morton, formerly pastor of the Dock Street Christian Church, of Wilmington, made a very eloquent address on "State Missions." He has recently accepted a call to the Fourth Street Church at Winston-Salem, and has already taken charge of the work there.

Grant K. Lewis, of Cincinnati, Ohio, secretary of the Home Mission Board, gave a cheering and stirring message regarding the work on the great American field. He delighted the ladies with the good news that the Disciples had given one-fifth of the $1,000,000 in the Jubilee Offerings.

I. W. Rogers, of Newbern, and S. P. Speigel, of Wilson, gave ringing appeals in behalf of the work in our towns and cities. W. T. Larpade, who for three yehrs has held a professorship in Trinity College, greatly delighted all on "The Value of the City to the Kingdom." It will be published in one or more of the leading journals of the brotherhood.

The educational session Wednesday afternoon was greatly enjoyed. President Caldwell, of Atlantic Christian College, reported a very successful year, and favored the convention with a variety of music and reading by Miss Jennings.

Wednesday evening was the crowning event, abounding in special music, stirring songs, messages from many lands, closing with Dr. Shelton's experiences in far away Tibet.

Thursday morning was crowded with the many reports. Several new ministers were enrolled, and appropriations were made to many missions. Three new churches were enrolled and encouraging progress was shown along all lines. The last hours were spent in a most enthusiastic programme on Bible School work. R. V. Hope, of Washington, was continued as State superintendent. Farmville is the place of the next meeting on Monday after the second Sunday in November.

NO EVIDENCE OF POISONING

Such is Said to be Opinion of Physicians Who Exhumed Body at Whiteville—Cotton and Other Crops.

(Special Star Correspondence.)

Whiteville, N. C., Nov. 3.—The body of Mrs. Edgar Thompson was again disinterred today by Coroner Slade Smith and Drs. Maxwell and Brown. The brain had decayed and none was visible. The stomach was then removed entire, placed in a glass jar and sealed up. Dr. Maxwell, county physician, stated that the physicians engaged in the work had unanimously agreed not to discuss the subject or state what decision they had reached. He said the stomach would be turned over to Mr. Pierce, chairman of the Board of County Commissioners, and by him sent to Raleigh to have the contents analyzed by the State chemist, to see if he can detect the presence of poison. It is supposed that some time will elapse before the analysis is made. Edgar Thompson, the husband, has not been molested. When the body of the dead woman was taken up, the work had to be done by the three physicians. There were several persons at the graveyard including relatives of Mrs. Thompson, but they declined to assist in excavating the dirt or even again filling the grave. The grave was very shallow, not much more than two feet deep. Dr. Maxwell says the body was offensive, and badly swollen. He did state that the appearance of the face did not necessarily betoken poison. Coroner Smith has returned home, after discharging his duty.

While the physicians refuse to give out any information, until their report is made to the proper authorities, it is generally reported on the street that they found no evidence whatever of poison and are united in the opinion that the deceased came to her death from natural causes, as stated by Dr. Smith, of Chadbourn, the physician who attended her.

It is also said that these physicians will recommend that if the stomach of the woman be analyzed that the expense be borne by the family of Mrs. Thompson, as there are no evidences of poison. It is understood that this step will be taken.

We are having our first real cold spell this morning, and it will put the finishing touches on cotton. Farmers say that the boll weevil, that stripped a number of fields of cotton in this county, were really beneficial and greatly helped the yield of the staple, by eating off the foliage and thus permitting the sun to reach and mature many bolls that would otherwise have rotted.

A party of deer hunters went out yesterday from Whiteville, but they did not bring back any game. They found plenty of tracks, but these were too old for the dogs to trail. But our citizens are now feasting on venison, wild duck and quail. Game was never so abundant and hunters bring in full bags of birds whenever they go out.

Mr. Lewis Spivey, of Whiteville, has sold his little farm, about one mile from town, for $3,000. This shows that farming lands in our county continue to advance in spite of the low price of cotton. A number of other deals are on foot, and every week parties are over here looking for farms.

Practically no cotton is now being sold by farmers. Most of them have arranged about their debts, and are holding their cotton for an advance in price. Many are not having their cotton ginned, as they do not want to sell the ginners' reports. Besides, they say by keeping their cotton in the seed it gains about 30 pounds to the bale, the lint absorbing the oil in the seed, and which improves the grade.

Thompson Exonerated

Whiteville, Nov. 3.—The committee of physicians, who disinterred the remains of Mrs. Edgar Thompson, has filed its report for the inspection of our Board of County Commissioners, and it is on line with the statement already made in the article sent The Star this morning. The report states that they made an examination of the body of the deceased, after performing a post-mortem operation and removing the stomach and brains, and there is nothing to denote that she came to her death from either poison or other foul means, but that her death was from natural causes. They do not consider any analysis of the stomach necessary. This report will be read before the commissioners when they meet next Monday, and it ends further investigation, unless the family of the deceased decide to press the investigation, when they can have the contents of the stomach analyzed at their own cost and expense. The attorneys on both sides seem entirely satisfied with this report, having confidence in the physicians who made it, viz: Drs. Slade Smith, coroner; H. B. Maxwell, county physician, and Fletcher Brown. The public at large are gratified that the matter has thus ended. The report vindicates Edgar Thompson, and who stands exonerated from the serious charge made against him. It is understood that the absence of brain from the skull showed that the deceased woman was mentally unbalanced at the time of her death, and was not responsible for her wild talk.

IN PROHIBITION STATES.

Postal Employes Charged With Representing Liquor Companies.

Washington, Nov. 3.—Complaint has been made to Postmaster General Hitchcock that postmasters and rural delivery carriers have been acting as agents for liquor companies. Especially is this true, the report says, in prohibition States, where intoxicants are hard to get. The Postmaster General issued an order today, warning postal employes not to act as agents for liquor firms in any way: Any postal employe violating this order will be dismissed from the service at once.

Essential to Comfort

PERFECTION SMOKELESS OIL HEATER

Warmth is essential to comfort. As you grow older, it is hardly less essential to health.

Get a Perfection Smokeless Oil Heater, and you keep warm and comfortable in your home, no matter what the weather without.

The Perfection gives a strong, widespread heat, and gives it quickly. It is always ready for use and burns nine hours on a single filling—no more trouble than a lamp. It can be carried anywhere; no pipes, no wires, no flues; no smoke, odor or dirt.

The heater that gives complete satisfaction.

This year's Perfection is finished in either blue enamel or plain steel; nickel trimmings; light and ornamental, yet strong and durable as can be made. All parts easily cleaned. Automatic-locking flame spreader prevents smoking.

Dealers everywhere; or write to any agency of the

Standard Oil Company

THE MORNING STAR

Published by the
WILMINGTON STAR COMPANY, INC.,
Wilmington, N. C.

Entered as second-class matter at the postoffice at Wilmington, N. C., under Act of Congress, March 2nd, 1874.

FULL ASSOCIATED PRESS REPORT.

PUBLISHERS' ANNOUNCEMENT.

THE MORNING STAR, the oldest daily newspaper in North Carolina, is published daily except Monday, at $6 per year, $3 for six months, $1.50 for three months, 50 cents for one month, served by carriers in the city, or by mail.

THE SUNDAY STAR, by mail, one year, $1; six months, 50 cents; three months, 25 cents.

ADVERTISING RATES may be had on application, and advertisers may feel assured that through the columns of this paper they may reach all Wilmington, Eastern Carolina and contiguous territory in South Carolina.

Obituary sketches, cards of thanks, communications espousing the cause of a private enterprise or a political candidate, and like matter, will be charged at the rate of 10 cents per line, or if paid cash in advance a half rate will be allowed. Announcements of fairs, festivals, balls, hops, picnics, society meetings, political meetings, etc., will be charged under same conditions, except so much thereof as may be of news value to readers of the paper.

Advertisements discontinued before expiration of contracts are charged transient rates for time actually published. Payment for transient advertisements must be cash in advance. Contract advertisers will not be allowed to exceed their space at same rates, or advertise anything foreign to their regular business without extra charge. Advertisements to occupy special place will be charged for according to position desired.

TELEPHONES: Business Office, No. 51; Editorial and Local rooms, No. 61. Call either, if the other doesn't answer.

COMMUNICATIONS, unless they contain important news, or discuss briefly and properly subjects of real interest, are not wanted; and if acceptable in every other way, they will invariably be rejected unless the real name of the author accompanies the same, not necessarily for publication, but as a guarantee of good faith.

Saturday, November 4, 1911.

Even Brodie L. Duke didn't have money enough to keep his father-in-law off the roads.

Of course, the Rocky Mount Telegram is a "bully" paper, with two sharp "Hornes" at its head.

Everything sems to be coming down in price, including King Cotton, except the absolute necessities of living.

Richeson's lawyers claim that he is innocent of the murder of Avis Linnell. Anything remarkable about that?

Is Wilmington to have professional baseball next season? That depends on the manifestation of public spirit through the medium of cold cash.

The low price of cotton is not the farmers' only source of complaint. The high cost of everything that goes into the production of the staple is where the rub comes.

In two hours a few days ago 55 divorces were granted in the Superior Court at Augusta. No, not Augusta, Maine, but way down in Georgia. The probability is that most of the couples were colored.

With million-dollar cargoes and million feet of lumber exportations from Wilmington now most any day, the old port seems to be holding her own pretty well and doing the business regardless of the thirty-foot channel.

Big business in New York seems considerably upset over the government anti-trust prosecutions, but big business must remember that it has had the public upset for the past 30 or 40 years, and especially during the last 20 years.

In President Taft's suit to 'bust" the Steel Trust it is hardly to be supposed that Col. Roosevelt will have any sympathy with the prosecution. The Colonel comes very nearly being a party defendant on account of being deceived because of disordered judgment.

With the necessarily limited appropriation by the Legislature, the State Building Commission has done exceedingly well in the award of the contract for the administration building at Raleigh, which, according to the alteration of the plans, will now be entirely of stone, instead of only partially of stone as at first proposed. And all this, too, within the appropriation!

The New York Kennel Club is stirred up over what the papers call "feminine spite," out of which has grown a libel suit for $60,000 against the club by Miss Rosalie Stewart, a rich society woman and "dog fancier." The lady members of the club charged her with dishonesty in making entries for the dog show. Charitable work would be more becoming to those women and if they were to get out and aid humanity they would cease to be so dogmatic as to fall out over a dog show.

Good news is contained in the announcement that the experts of the United States Agricultural Department have discovered several deposits of potash in the West. Secretary Wilson has not yet given out the particulars, but from what is said the deposits are rich and in sufficient quantity to make American agricultural interests independent of the European mines. If that is true, it will free our fertilizer manufacturers from the German potash syndicate whether it will free the farmers or not. It is to be hoped the deposits are on government lands, but as to that there is no intimation.

LACK OF PUBLIC INTEREST.

If there is one thing the matter with our municipalities, it is lack of public interest on the part of the average citizen. Comparaticely few take an active part in local politics, and in most instances, the ward politicians have their own way. The result is the building of a local political machine concerning which nearly everybody expresses dissatisfaction, but which perpetuates itself owing to a large disinterested citizenship. About the only time dissatisfaction is expressed is when things are being done, but the very next time an election is held public indifference is again manifest. Of course, that suits the machine politicians, and so it goes. Perhaps that is why so few citizens really take a live interest in public matters. We have seen meetings of vital interest to Wilmington called and exploited days beforehand only to be attended by a handful of substantial citizens. Probably the cause of it is a chronic indifference to local "political squabbles," as some municipal contests are called, and doubtless that indifference is carried to matters for municipal progress and betterment movements generally.

That should not be the case, for no city will ever effect material reform and make real progress so long as there is general indifference. Savannah furnishes us an illustration in her movement for better health. There is a proposition in that important city to vote bonds for the thorough drainage of the city with a view to improving health conditions. On so vitally important a question as a city's health—a matter of life and death, and prosperity itself, it would seem that every man's interest would be aroused to the keenest point, but read this from the Savannah Morning News, of Thursday:

"Only three days remain in which voters can register for the drainage bond election. The registration hasn't thus far met expectations. It is much less than it was thought it would be and less than it ought to be. There are no arguments offered against the need of drainage. It is admitted that good health requires both storm and house drainage. And it is quite generally conceded that the cost of the improvement should be distributed over a long period. Every citizen is interested in the drainage proposition, since it has for its object the improvement of health conditions on the east and west sides of the city. Indirectly, it is also for the improvement of the health of the whole city, since bad health conditions in any part of the city affect injuriously the health of other parts. The total number registered up to last night was 2,701. The total when the registration books are closed on Saturday may reach 3,000 probably a few more than that number. Registration picked up a little yesterday, indicating an increase in interest. Upon so important a question the registration should be very much greater than it now promises to be. Those who intend to register should do so at once and not put it off until the last day. There may be some who have delayed simply because they felt there was still plenty of time, but if many are acting upon that idea they may be shut out, since on the last day there may not be time for all to register who apply."

We do not refer to this matter to reflect in any way upon Savannah, but to apply it in a general way to Wilmington and municipalities generally. Indifference in some particulars is almost criminal, but the matter of health is a notable instance. There is no excuse for delay in so serious a matter. The "plenty of time" idea is too prevalent. When an important matter is sprung in behalf of a city, it should be attended to promptly as serious personal business. The interest and spirit of a city's people give the city its character for being progressive or slow, and it is time for the men of our cities to quit their indifference and act like the city is theirs and not somebody else's. On the question of improving Savannah's healthfulness, a registration of only 3,000 voters to pass on a bond issue is ridiculous. Men should resolve to take deeper concern in their city's welfare and progress. Indifference is responsible for dead old cities.

TREND OF TURCO-ITALIAN WAR.

The Washington Post, in an extremely interesting review of the Turco-Italian situation has the following:

"Italy's reported determination to take forcible possession of Turkish islands in the Mediterranean if the surrender of Tripoli is delayed any longer, bears out the news coming from other quarters that the Italians troops dare not venture beyond the fire of their fleet. Granting that the Italians have accomplished all they claim in the way of driving the Turks out of the coast towns, what is there to show that they have been able to make any kind of progress toward planting the flag in the hinterland? If the situation is as rosy as Rome pictures it, why resort to the dangerous expedient of carrying the war into what is virtually European territory? It is given out authentically that a secret mobilization of reinforcements for Tripoli is in progress, but it seems more likely that the real purpose is to hold the troops in readiness to take possession of the Turkish islands which Italy has her eye on if resistance in Tripoli be persisted in.

"But if Turkey is in a mood to hold out against her foe at any cost, would not Italy be in a position logically pushing her, if Tripoli still held out, to supplement the capture of the islands in question by sending the fleet to occupy the ports of the Turkish coast proper? Italy's abandonment of her plan of conquest as being the best way out of a bad job would be a great military and moral victory for Islam over Christianity, as well as a serious setback for the conspiracy of the great powers looking to the dismemberment of Turkey in Europe. And that would never do. With Italy held in check by superior forces, preventing an advance on Constantinople, the military deadlock would be complete, the commerce of the Mediterranean paralyzed, the powers forced to show their hand. The situation would have become impossible, diplomatically and commercially.

"That there is an understanding between the powers is now tacitly admitted, but as it is contingent upon Italian success, as to which no doubt was entertained at the time, the prospective turn of affairs would seem to call for further negotiations, for intervention, and the calling of an international conference.

"While putting Italy in a hole might be regarded by some as speculative, really it has strong claims on the attention upon the ground of probability. It comports with what has taken place and also with what is known with respect to Italy's purposes.

"Of course, Italy has the option of withdrawing from the adventure in shame and confusion, as she did from Abyssinia; or, what is more likely, Turkey may set the Balkans aflame the moment Italy attacks her islands in the Mediterranean, thus giving the situation a new and enlarged aspect. Another factor which is hastening the march of events to a crisis is that the war is not costing Turkey much financially, compared to Italy's heavy outlay, added to which there is the tremendous strain the powers are under because of the prolonged struggle."

ROYAL
Baking Powder
Absolutely Pure

No Alum—No Lime Phosphates

OUR COAL SUPPLY

Director Holmes, of the Federal Bureau of Mines, has lately returned from Alaska. There he looked into the coal deposits, which have been the subject of much scandal. He came back, says the Richmond Times-Dispatch, with the belief that the coal supply in this country will soon be exhausted if preventitive measures are not adopted at once. H ewill tell the Public Lands Committee of Congress that the coal supply of the nation will be used up within two hundred years in certain important districts if the present rate of increase of consumption is continued.

Director Holmes thinks that the Alaskan deposits have been greatly overvalued, but great or small, they should be made available so as to reduce as far as possible the consumption in other sections of the national domain.

This same authority would lease government coal mines. Every available source of supply should be drawn upon. The leasing system would enable the government to keep control of many large districts. In this manner, true conservation would be brought about. The Times-Dispatch adds:

"Congress will this Winter consider the subject. The adoption of a conservation policy is urgent. By opening many additional mines consumption can be reduced at old mines. This is most desirable and essential. Experts all agree as to this point. It is to be hoped that Congress will immediately provide for the leasing of all government coal deposits."

CURRENT COMMENT.

In an address at Meridan, Mississippi, President Finley, of the Southern Railway, said that "no State in the South can offer greater attractions to the thrifty immigrant than can Mississippi; but he was wholly mistaken or badly advised, as here is North Carolina, for example, the greatest State in the South. The thing that will stand in Mississippi's way possibly—the thing that stands in North Carolina's way—is too high freight charges on household goods in carload lots.—Charlotte Observer.

The eastern part of North Carolina has taken on new life in these later years. Swamps covering vast areas of fertile lands are being succeeded by tillable soils that produce immense crops and the unusual opportunity for development along this line is attracting the attention of distant home-seekers. The Duplin Enterprise lately figured that twenty per cent., or 109,824 acres of Duplin's area, is swamp land of great fertility and such natural strength of soil that sixty bushels of corn could be produced to the acre without the aid of commercial fertilizers. It is encouraging that the people of this county are not content with the mere possession of such immense lands, but are actually at work converting them into fields fit for cultivation. Drainage districts have been declared and huge steam dredges are being secured with which to bring about the transformation. Eastern Carolina is a goodly country and the enterprise of its people is being witnessed in the activities that have started looking toward this development.—Charlotte Observer.

The passing of an ordinace forbidding the use of the muffler cut-out and regulating the automobile horn, or warning signal in Chicago, may be regarded as the standardization of law in these particulars, a result that is greatly to be desired. The author of the ordinance has issued a somewhat lengthy letter in which he explains the conditions which led to this action, and among other things he says: "I recognize fully the fact that the use of the motor vehicle is rapidly increasing, and for this reason, if for none other, regulation by law of the warning signal is essential. It cannot be considered as a toy, and whoever uses it as such ought to be punished. I have no desire to make war on the motorist, but the rights of the thousands of pedestrians who daily cross and recross our streets must be protected. I have no thought that the majority of motorists hold any other view, but there is a careless element that must be restrained by law, if the public is to be adequately protected." It will be better for the automobilists, for pedestrians and for people who drive along the roads, when a uniform automobile signal shall have been adopted and this is going to be done sooner or later. Take for instance, Independence Square, any hour of the day and reflect on how much better and safer conditions would be, were the confusion of automobile bedlam reduced to a known and standard signal. How much wrack would be saved to the nerves of a sleeping populace by machines that go screaming and bellowing by in the night! The Chicago ordinance ought to become as infectious as the measles.—Charlotte Chronicle.

COMMUNICATED.

Mr. Editor:

In nearly every Wilmington paper I read, I notice that there is nearly always something printed in regard to the progress and prosperity of Wilmington. As a business man of Wilmington and a large landowner of Pender county, I am deeply interested in the welfare of Wilmington.

Would it not be a good idea to make arrangements so that the people can enter the city without any expense and with very little trouble? Why do we people of Wilmington and New Hanover county go outside of the county and try by act of Legislature, to force people living in other localities to help purchase the Market street ferry?

Why don't the city of Wilmington and county of New Hanover buy the Market street ferry and build a bridge over the river? A lot of people who now don't visit Wilmington, would then come here and dispose of their produce and spend their money.

A good idea would be to build the bridge at Hilton ferry and build a road across the swamp to Navassa. It would accommodate all the people who now use the Market street ferry and also reach a lot of farmers who can only come to Wilmington by boat or by railroad.

Then there is that long promised and proposed bridge near Castle Haynes. A very few people interested in a certain location, propose to force white people to pay for building a bridge across the river at the most inconvenient place, namely, at the so-called Blossom Ferry, while all the people who live in Pender county, and who use the ferry, wanted the bridge built below the railroad bridge.

By building the bridge at the so-called Blossom Ferry, we will have to cross the railroad tracks twice unnecessarily, while if it is built below the railroad bridge, then we will save ourselves the danger and trouble of crossing the railroad tracks twice.

Of course, I don't intend for a moment to propose to leave the owners of the so-called Blossom Ferry with their old ferry flat and the other old plunder on their hands as a dead loss, but let the county purchase it As I understand it, they, the county officials, either have, or intend to ask some civil engineer to recommend a suitable place to build a bridge, but that would not be satisfactory to the voters, for a few dollars used with judgment, may change the mind of an engineer as well as other people.

About the difference in price: The road by the so-called Blossom Ferry is at least one mile longer than the road would be by having the new bridge built below the railroad bridge. It means that a party having to cross the river near Castle Haynes would save one mile each way by crossing the river below the railroad bridge. As time is money, how long would it take the people who cross the river to save enough to pay for a dozen bridges. A mile's travel out of the way for one man is not much, but when the whole population of two or three counties have to travel two miles out of their way for each trip to town and return, it amounts to a great deal. Furthermore, there would be no dangerous railroad tracks to cross.

If the bridge is built at the so-called Blossom Ferry, and anyone is killed at the railroad crossing, on their way to or from the bridge, that person's blood is upon the heads of these, who for selfish reasons, have forced the bridge, at that place, upon the people.

If the County Commissioners of New Hanover and Pender counties wish to avoid such responsibility, then let them put the matter before the people, and let the majority decide where they want the bridge built. In case the County Commissioners fail to listen to reason, then our only remedy is the court, and it should be used. It is ridiculous to allow two or three men to run over the people of two or more counties.

I sincerely hope that the bridge matter will be settled without any more hard feelings than it already has created. The plain people who have to use the bridge daily should have a larger voice in the matter than two or three men who own or control property where (who for selfish reasons, without regard to the public who is to use it) they desire the bridge to be built. Serve the interest of the general public and not one or two private citizens, Mr. Public Servant.

(Signed) WM. CROWNSTREAM.

Sincerity transforms all things. The greatest fault, if it is avoided in a loyal kiss, becomes a verity more beautiful than innocence. — Maeterlinck.

ANOTHER VICTIM IS RELIEVED

Mrs. Hoskins Lost Heart and Gave Herself Up to Die, But is Relieved By Taking Cardui, The Woman's Tonic

Cary, Ky.—"I am in better health than I have been for years," writes Mrs. Sarah J. Hoskins, from this place, "and I thank Cardui for it.

I suffered for years with womanly ailments, and at times would nearly cramp to death. My back and right side would nearly kill me.

I tried everything to get relief, but failed. I lost heart, and gave up hope of ever getting well. Then I saw Cardui advertised, and got a bottle. I was down in bed, but before I had taken two bottles of Cardui, I was up and helping with my work.

Now, I can wash all day and do my house work, with ease. I feel better than I have for years. Since taking Cardui, I have gained more flesh than I ever did in my life.

I praise the medicine to all my friends, for I believe Cardui saved my life."

If you are weak, tired, worn-out, or suffer from any of the pains peculiar to weak women, such as headache, backache, pains in arm, side, or limbs, or any other symptoms of womanly trouble, you are urged to try Cardui, the woman's tonic. It will help you.

During the past fifty years, more than a million women have been benefitted by using Cardui. Ask your druggist.

N. B.—Write to: Ladies' Advisory Dept., Chattanooga Medicine Co., Chattanooga, Tenn., for Special Instructions, and 64-page book: "Home Treatment for Women," sent in plain wrapper, on request.

DUNN NEWS NOTES

Metropolitan Theatre Open—Missionary Societies—Other Items

(Special Star Correspondence.)

Dunn, N. C., Nov. 3.—The new Opera House was opened to the public last Tuesday night, and Beverly of Graustark had the honor of being the first play to be produced in the "Metropolitan Theatre." This name was decided on by the judges who were selected by the managers of the Opera House. A prize was offered of a season's ticket for the best name suggested, and Miss Jeanette Ruidisill, of Kings Mountain, one of the teachers in the graded school, won the prize. The management was very much gratified at the large attendance, and they have promised some good shows for the future.

Rev. W. M. Gilmore, of Atlanta, was a visitor here last week. He joined his wife who has been spending the Summer here with Mrs. James A. Taylor, and they will go from here to Sanford to visit relatives, going from there to Atlanta.——Elder P. D Gold, editor of the Landmark, published in Wilson, N. C., and one of the leading preachers in the Christian Church, preached here last Wednesday night to a large audience.——

The Cape Fear Free Will Baptist Conference is in session at Spring Branch church, near Dunn, this week, and there is quite a large attendance of ministers and laymen.

The Women's Home Mission Society of the M. E. Church, Fayetteville district, is in session here this week, and quite a number of the prominent women of the church are in attendance. The meeting will last for several days and the programme promises to be very interesting to those interested in this phase of the churche's work.

The singing class of the Oxford Orphan Asylum rendered quite an attractive programme at the Christian church Monday night. The crowd was entirely too large for the church, hence quite a large number could not get seats. Dunn always gives the Orphans a hearty welcome, and hereafter we can entertain the large crowds in the Metropolitan theatre.

CHARLOTTE EDITOR WORSE

Physicians Hold Out No Hopes for Recovery of Mr. J. P. Caldwell

Charlotte, N. C., Nov. 3.—The condition of J. P. Caldwell, former editor of the Charlotte Observer, who suffered a stroke of paralysis two years ago and has been seriously ill since, is gradually sinking. Attending physicians hold out no hope for his recovery.

Balked at Cold Steel

"I wouldn't let a doctor cut my foot off," said H. D. Ely, Bantam, Ohio, "although a horrible ulcer had been the plague of my life for four years. Instead, I used Bucklen's Arnica Salve and my foot was soon completely cured." Heals burns, boils, bruises, eczema, pimples, corns. Surest pile cure, 25c. at R. R. Bellamy's

ELECTED CASHIER OF BANK

Mr. J. F. Roache Chosen to Fill Important Position With New Institution—Now With R. G. Dun & Company.

In line with their policy as established at the organization meeting to choose only the best men possible as officers of the institution, the directors of the Home Savings Bank yesterday afternoon elected Mr. J. F. Roache, a well known and exceedingly popular young business man, as cashier of the bank, and he will leave his present position as manager for this district for R. G. Dun & Co., in time to take up his new duties the first of December, when the bank will open for business, in a building that has not yet been selected, but will most likely be decided upon by the directors at another meeting this afternoon.

The directors of the bank count themselves exceedingly fortunate in securing the consent of Mr. Roache to become one of the bank's principal officers and believe that in Mr. Joseph W. Yates, president, Joseph W. Little, Esq., vice president and attorney, and Mr. Roache, cashier, they have a most capable set of officers who will preside over the destinies of the institution in such a way as to make the bank a great success from the beginning. Of this they feel confident. Messrs. Yates and Little were elected at a previous meeting. The directors have had Mr. Roache in mind for the position of cashier since their first meeting and the time intervening between the first meeting of the directors and the meeting yesterday was taken up by them in using their persuasive powers on Mr. Roache, who finally yielded to their entreaties. Mr. Roache, a native of Richmond, Va., has been with R. G. Dun & Co., for 14 years, in fact, has known no other employ, and for the last five years he has been manager of the Wilmington district, embraced in which are 13 counties. This is an important position and one which brought him in close touch with the men of affairs of the community and throughout the 13 counties, for that matter. He is a man of fine business judgment, pleasing personality, affable disposition, and in every way qualified for the duties of the important position to which he has just been called. For about nine years he was with R. G. Dun & Co., in the Richmond office and in January, 1906, he came to Wilmington as manager of the local office. Wilmington has been his headquarters and he has spent most of his time here, with occasional trips to the other counties of the district. He was considered one of the most valuable men in the employ of R. G. Dun & Co., and it was with much reluctance that the company accepted his resignation. His successor will probably be announced some time before the first of December.

The directors discussed the matter of temporary quarters for the bank, but contrary to expectations no decision was reached yesterday. It is expected that action will be taken at a meeting to be held today. The meeting yesterday was presided over by Mr. Joseph W. Yates, the president, and Mr. L. W. Moore acted as secretary. After the election of a cashier and discussion of quarters a number of other matters preliminary to the opening of the bank were discussed. The directors were very enthusiastic over the prospects for the institution.

ORPHANS' HOME DAY

Will Be Celebrated by Local Pythians On November 16th

Local lodges of the Knights of Pythias are making arrangements for the celebration of "Orphans' Home Day" on Thursday evening, November 16th, in Castle Hall, over the Murchison National Bank, when an address will be delivered on "Ideal Pythianism" by Rev. Frank J. Mallette, of Salisbury, who is an enthusiastic Pythian as well as able and well-known minister of the Gospel. The four local lodges, Clarendon, Jefferson, Stonewall and Germania, as well as Delgado lodge, will join in the celebration, and it is not improbable that several out-of-town lodges will be represented. Word has already been received by the local lodges that Richard Caswell Lodge at Southport will have representatives at the meeting.

The Pythian orphanage is located at Clayton and was established only a few years ago. It is doing a fine work and is receiving the hearty support of Pythians throughout the State. Mr. G. Herbert Smith, of Cronly, is a member of the board of trustees of the institution.

"SOME MULLETS."

Record Haul Reported From Brown's Inlet, Onslow County.

"Speakin' 'bout fishin'," and with reference to an account in the Star a few days ago of a catch of mullets consisting of over 10,000 fish, the Star's good friend, Mr. E. S. Smith, of Marines, Onslow county, informed us yesterday that we must "come some more" if we wanted to beat his record.

He stated that on October 19th he with a party of fishermen made a single haul at Brown's Inlet fishing grounds which consisted all told of a good bit over 130,000 mullets. The services of 35 men were required for two days and nights in preparing and packing the rich haul, which made a little over 600 barrels of marketable product. Mr. Smith also exhibited what he said was the largest mullet roe he had ever seen, and which measured from tip to tip 10 1-2 inches, and must have weighed something over two pounds.

Yoke Fellows' Appointments.

Appointments of the Yoke Fellows of the Y. M. C. A. for tomorrow have been announced as follows: City prison, B. A. Robeson; county home, M. O. Alexander and H. E. O'Keef; Wrightsboro Union Sunday School, E. Cavanaugh and A. Cowan; revenue cutter Seminole, J. B. Huntington. The service at Castle Haynes will be held at 4 o'clock in the afternoon and the Yoke Fellows will be assisted by Rev. Dr. A. D. McClure, pastor of St. Andrew's Presbyterian Church. A series of meetings will be held at Castle Haynes through the week, services being held at 8 P. M. each day.

WINTER SURE ENOUGH NOW

City and Section in Grasp of Cold Wave and Frosts Again Predicted for the Coastal Region This Morning.

Borne on the wings of a chill northeast wind, Winter swooped suddenly down upon the city and coastal region Thursday afternoon and the mercury fell rapidly during the night, reaching 35 before the wavering rays of yesterday's morning sun sent it slowly back up the slender glass column, and last night it was falling steadily again, with predictions from the United States Weather Bureau of frosts for Wilmington and the coast this morning.

The high pressure area was central over the Ohio valley yesterday morning and colder weather had spread into the eastern districts from northern Florida to New England, with killing frosts reported from North Carolina to New York. Freezing temperatures were reported as far south as Charlotte, Memphis, Little Rock and Abilene, Tex. Yesterday's report indicated fair weather for this section last night and today with northerly winds and frosts on the coast. Observer Geo. W. Felger, of the local weather bureau, sent out special frost warnings yesterday.

Many citizens remarked that it was strange that there was no frost yesterday morning, but others stated that the strong winds that blew all night probably kept the frost off.

Out in the Dakotas, where the present cold snap seems to have originated, the lowest temperatures were reached, these being 14 at Rapid City, S. D., and 12 at Williston, N. D. In the South, Asheville was one of the coldest spots, the mercury falling to 22 in the mountain city.

If the forecasts of the Weather Bureau hold good it is most probable that the many citizens of the city by the sea who have been enjoying the luscious tomato and other garden truck even at this late season of the year, will be compelled to forego such gastronomic delights, but they may take cheer from the fact that the collard will now come into its own, furnishing many a dish of dainty salad, and the festive rabbit will become an article of diet once more.

THE RECORDER'S COURT

Three Defendants and Six Cases on Yesterday's Docket

Beyond the fact that six cases came up for consideration, although only three defendants were named, the session of the Recorder's court yesterday morning was very little out of the ordinary. Sylvester Ashe, colored, answered a total of three charges, for two of which he paid fines. For assaulting the policeman who arrested him he contributed $5 and the costs and for resisting the officer another $5 and costs. On a charge of assault with a deadly weapon upon another negro he was found not guilty.

R. E. Richmond, a white man, was charged with an assault and with disorderly conduct. He was arrested Wednesday night and was recognized to appear for trial Thursday morning, but overslept and did not get to the Court House in time. He was recognized to appear again yesterday morning and was on time. On the disorderly conduct charge he was assessed $10 and the costs, and judgment was suspended in the other case.

Mary Brown, a negress, had disported herself contrary to the statutes governing and prescribing orderly conduct and she was taxed $5 and the costs.

ACTIVITY IN PORT.

Nearly One Million Feet of Lumber Shipped Yesterday.

A port record that has probably never been exceeded and one which reflects the material prosperity of Wilmington and the surrounding section, was made yesterday when three schooners cleared for New York with cargoes totaling nearly 1,000,000 feet of finished lumber.

The Lina C. Kaminski cleared early yesterday morning for New York with cargo of 341,473 feet from the Wiley, Harker Lumber Co., followed in a short time by the Edward R. Baird, Jr., with a cargo of 268,000 feet of dressed lumber from the Camp Lumber Company. In the afternoon the Elizabeth A. Scribner cleared also, for New York, with a cargo of 300,000 feet from the Wiley, Harker Lumber Co.

Shipments like the above only serve to reflect the remarkable activity in the port at the present time and to give a faint prophecy of what may be expected within the next few years when the Panama Canal is opened, throwing its tremendous flood of business to this section. All the vessels yesterday were by C. D. Maffitt.

M. H. BRIMMER CO., INC.

Organization Meeting of New Undertaking Establishment

The organization meeting of the M. H. Brimmer Company, Inc., Wilmington's new embalming and undertaking establishment, was held Thursday night and directors were elected as follows: Messrs. L. W. Moore, B. C. Moore, W. A. McGirt, A. M. Alderman, L. O. Smith. Following the stockholders' meeting the directors met and elected officers as follows: President, L. W. Moore; vice president, Mr. B. C. Moore; secretary and treasurer, Mr. Eugene P. Schulken; general manager, Mr. M. H. Brimmer. The establishment will be located at No. 26 North Second street and it is hoped to open for business by the 15th of this month. Notice has been received by the company of the shipment of the stock which comes from a number of factories in the North.

Real Estate Transfers.

Deeds were filed for record yesterday as follows: James T. Riley and wife to L. W. Moore, for $100 and other considerations, lot on Third, 198 feet north of Wright street, 28x82 feet in size; Eddie Thompson and wife to I. Shain, for $10, and other considerations, lot on Queen, 189 feet east of 10th street, 47x99 feet in size; L. C. Sutton and wife to E. R. Pickard, for $3,000 and other considerations, lot on Second, 136 feet south of Grace street, 62x127 feet in size.

MAY GO TO HIGHEST TRIBUNAL

Rumored that So-Called Whiskey Interests Will Carry Their Fight to the United States Supreme Court.

It has been rumored on the streets for the past several days that the 61 men indicted by the last grand jury on the charge of violating the State prohibition law, will carry a test case to the United States Supreme Court to determine if the State law making the holding of an internal revenue license to sell whiskey prima facie evidence of intent to sell whiskey, is constitutional.

While there is no definite authority for the rumor, yet those who are in touch with the alleged whiskey interests assert their confidence that the indicted men will fight to the last ditch, and it is very probable that should their preliminary fight in the State courts go against them they will carry their case to the highest tribunal in the land to have the question settled definitely once and for all.

So far as is known, the exact legal point involved has never been carried before the Supreme Court of the United States and many of the foremost lawyers disagree in their opinions as to the constitutionality of the law. The point argued would be that when Congress, under its power, passes a law permitting the issuance by the government of a license covering the sale of spirituous liquors as a means of raising revenue, it is unconstitutional for a State to pass a law making the holding of such a license prima facie evidence of intent to sell liquor. The case would establish a precedent and it would undoubtedly be a hard fought one and attract much attention from all over the country.

It is also very probable that when the Board of County Commissioners holds its monthly meeting next Monday afternoon it will be urged to ask the Governor to call a special term of criminal Superior Court for New Hanover county, in order to clear up the greatly congested docket to some extent. Primarily this term would be for the trial of the so-called whiskey cases, but some of the other criminal cases on the docket might be gotten rid of at the same time. At this term of court would be argued the motion made by Assistant City Attorney Geo. L. Peschau and Solicitor H. E. Shaw, before Judge Ward at the last term of Superior Court, asking that the whiskey cases be moved to another county for trial on the grounds that the State did not believe it could get justice in New Hanover. The lawyers representing the indicted men will certainly make a strong fight against the removal of the cases to another county for trial, but the Solicitor and those who will assist him evidently feel that they will eventually succeed in getting the transfer. The public may at least look forward to some exciting legal battles when the cases do come up for trial.

BASEBALL MATTERS

Wilmington Is Ready to Come Into New State League

The Star yesterday morning carried a story relative to the vacancies in the membership of the Carolina Baseball League, stating the fact that as matters now stand there was a chance for three North Carolina towns to come in to complete the formation of a strong North Carolina State League for the season of 1912. This story was simply a continuance of several, run soon after the close of the Carolina League season in which it was predicted that the South Carolina towns formerly in the league would not be forthcoming with the necessary guarantee for another season, which fact has proven itself true.

On the strength of the story carried by The Star yesterday quite a commotion was started among the ones whom Wilmington has been looking to to start something along this line when the time came, and yesterday the following telegram was sent to President J. H. Wearn, at Charlotte:

"Wilmington is ready to post $1,000 guarantee for a franchise in Carolina League." This was signed by Mr. William Struthers, who, with associates are prepared at a moment's notice to post the guarantee money with the league officials.

It now remains for the people of Wilmington to let these gentlemen know whether they really desire to get into the fastest Class C baseball league in the country or not. Mr. Struthers will post the required bond for faithful carrying out of the pact between the different clubs, on his own responsibility, but the people of Wilmington, who are expected to support the team, are asked to come forward and offer their assistance, financial and moral, toward carrying out plans for a baseball club owned and controlled by the people themselves. With the matter coming to a head this early, a manager can be signed and get to work gathering a first-class bunch of players in time to get the best.

The only thing now to be done is for the people to demonstrate that they are real baseball hungry and come across with what assistance they are willing to offer toward it, and it will be an assured fact that Wilmington will again be in the limelight when next Summer rolls round. It is practically certain that Wilmington's application for admission will be favorably acted upon at the next meeting of the directors to be held soon, as it has already been intimated that Wilmington is preferred over some of the other towns as a possible holder of one of the vacant franchises. While Raleigh and Durham have not yet been heard from, as the press notice as contained in The Star yesterday was only sent out Thursday, it is almost certain that both of these towns will jump at the chance to get in as they have already filed applications for possible vacant berths, and with a league composed of the towns of Charlotte, Greensboro, Winston-Salem, Durham, Raleigh and Wilmington, hungry local fans may look forward with keen anticipation and whet their appetite for the opening next Spring of the initial season of the fastest baseball league in the South.

Malaria Makes Pale Blood.
The Old Standard GROVE'S TASTELESS CHILL TONIC, drives out malaria and builds up the system. For grown people and children, 50c.

INQUIRIES ABOUT CITY BONDS

Number of Letters Pour Into Office of City Clerk and Treasurer—Winston Gets Par for Bond Issue

The usual number of inquiries are being received at the office of the city clerk and treasurer relative to the proposed sale of the remaining $400,000 worth of the water and sewerage and street improvement bonds, bids for which will be opened at the City Hall at noon, November 15th.

These inquiries come from banks, bond brokers and others. They ask for a statement of the city's present bonded indebtedness and for other information relative to the city's financial standing, which is promptly given by Capt. Thos. D. Meares, city clerk and treasurer. Some of the inquiries have been directed to the Mayor and these have been answered by Mayor Smith himself.

However, the fact that a large number of inquiries are being made by persons and firm interested in the proposed sale of the bond issue does not necessarily mean that there will be a large number of bidders, though very probably there be no dearth of bidders. It is not improbable that some good bids for the bonds will be received from Philadelphia concerns. The bonds are to be sold in blocks of not less than $100,000. They will bear interest at the rate of 4 1-2 per cent. per annum and run for 40 years. They cannot be sold for less than par. A few days ago Winston sold $160,000 worth of municipal bonds at par upon condition that the bidders be allowed $400 to cover the cost of bond blanks, attorneys' fees and incidental expenses. Wilmington cannot make any allowance for attorneys' fees, etc., under the law under which the bonds were voted. The Sentinel contained the following relative to the sale of the Winston bonds:

"At a special meeting of the Board of Aldermen yesterday afternoon, the bid submitted for the first issue of $160,000 of the recent $350,000 bonds voted by the citizens of Winston for public improvements, by the Wachovia Bank and Trust Company, representing itself, the Security Trust Company, of Spartanburg, and B. A. Leach & Company, of New York city, was accepted.

"The bid as submitted was as follows:

"'We will take $160,000 of Winston, N. C., 4 1-2 per cent. bonds, dated October 1st, 1911; payable October 1st, 1951; denomination, $1,000; both principal and semi-annual interest payable in gold at the banking house of A. B. Leach & Company, in New York city, and pay you par and accrued interest for same provided we are allowed $400 to cover the cost of the bond blanks, attorneys' fees and incidental expenses.'

"The same was accepted by the city.

"The bid received for the city bonds is an excellent one and it is gratifying to note that the Wachovia Bank and Trust Company, a local financial institution, formed the syndicate which purchased the bonds.

"The money is to be paid as follows: $80,000, plus accrued interest on the entire $160,000 to be paid in cash at the time of the delivery of the bonds; and $20,000 to be paid in appropriate certificates of deposit without interest in six, nine, twelve and fifteen months, respectively."

COLORED BAPTISTS HERE

Brunswick Atlantic Association Now in Session

The annual convention of the Brunswick Atlantic Missionary Baptist Association convened in the First Baptist church, colored, this city, Thursday evening at 8 o'clock with a fair attendance of delegates, coming for the most part from Brunswick and Columbus counties.

Rev. J. N. Bennett was to have preached the annual sermon, but he could not be here and in his absence Rev. Thomas Parker, of Warsaw, the oldest and most venerable colored minister in eastern North Carolina, conducted the opening services.

Rev. Parker has 2,000 members in four different churches of which he is pastor, and he has baptized more than 5,000 persons. He is a member of the Kenansville Eastern Association.

Yesterday's sermon was preached by Rev. J. D. Harrell, president of the Lumber River Association, and Rev. J. N. McNnight preached last night. Several of the delegates spoke at yesterday's session on "How to Conduct Revivals," among them being Rev. G. W. Phillips, Rev. D. C. Gore, Rev. T. H. Hall and Rev. H. H. Hartsfield.

Rev. J. H. Rhoe, this city, is moderator of the body and G. A. Best, of Whiteville, is secretary.

ANOTHER STORE ROBBERY

Goods to the Value of $50 Taken from Mr. Costin's Store

Mr. Decatur Costin has reported to Magistrate Geo. Harriss that his store on corner of 10th and Wooster streets, was entered some time after midnight Monday and goods to the value of $50 taken. The matter was kept a secret in the hopes that some clue would be found which would lead to the identity of the thief or thieves. A negro woman has been arrested in connection with the matter and it is expected that other arrests will follow soon.

Among the articles stolen were cigars, cigarettes, chewing tobacco, thread, canned goods and possibly other goods. A part of the stolen goods were recovered when the arrest was made.

Mr. Costin stated that the store adjoins a three-room living house and that the robber or robbers effected an entrance through the door connecting the two buildings, which was forced.

Called Out Twice Yesterday

The fire department was called out twice yesterday, the first call coming at 3:05 P. M., from boxes 35 and 44. The blaze was at 323 North Ninth street, owned by Jesse Corbett and occupied by Della Cotton, both colored. Starting from a spark from the chimney the fire damaged the house to the extent of about $15 before the firemen reacehd the scene and put it out. At 7:30 a telephone alarm was received from Lattimer's alley, but this proved to be only a chimney burning out.

Assaulted Him With Table Fork.

Mr. Cleveland George, son of Mounted Officer Frank George, yesterday took out a warrant charging Mr. Joseph Chadwick, of No. 301 Hanover street, with whom he boards, with an assault with a deadly weapon in the form of an ordinary table fork. It seems that the two became involved in an altercation at the table and Mr. George alleges that his landlord stabbed him in the neck with his fork. The case will be heard before Justice Geo. Harriss this morning.

Basketball at Boys' Brigade.

The basketball season at the Boys' Brigade began last night with two splendid contests in the gymn, witnessed by a large number of enthusiastic spectators. The first game was between the Pirates and the Giants and the former won by a score of 31 to 16. The feature of the game was H. Register's work in throwing 17 goals from the foul line. In the second contest the Athletics won from the Tigers to the tune of 28 to 15.

Death of a Child.

Friends will sympathize with Mr. and Mrs. H. D. King, of No. 99 Church street, Delgado, in the loss of their little two-year-old daughter, Abby, whose death occurred at the home yesterday afternoon at 3:20 o'clock. The funeral arrangements have not been announced.

Civil Service Examinations

The U. S. Civil Service Commission announces a number of examinations at Wilmington within the next few months. On Nov. 28th, there will be an examination for the position of stenographer and typewriter (male), in the departmental service at Washington and on Feb. 3rd, 1912, clerical examinations. Information may be obtained from the secretary of the local board of examiners at the postoffice, this city.

Boy Missing From Home

Thomas Breen, the 15-year-old son of Mr. Patrick J. Breen, of No. 507 Campbell street, has been missing from home for two days now, according to report made to police headquarters Thursday night. The lad was dressed in a brown suit, short pants, button shoes and wore a cap. His parents or the police will appreciate any information regarding his whereabouts.

Officer Kelly Returns

Deputy Sheriff A. L. Kelly yesterday returned from Summerville, Fla., where he carried John Gates, a negro of that place who recently became insane in the city. The genial officer stated that the negro was very quiet when he left here with him but that he did not remain in that state long and that he made him trouble in large bunches before he finally turned him over to the Florida authorities.

KILLS DOG WITH HER HANDS

Little Woman Strangles Rabid Animal When It Attacks Her

Richmond, Va., Nov. 2.—Mrs. Mary Hundley, blue-eyed and weighing barely a hundred pounds, is the heroine of her home town of Jarratt, in Sussex county. She strangled to death a big rabid dog in a desperate struggle and came here today for treament.

The animal ran in from the street and attacked Mrs. Hundley in her garden. She was scratched and bruised, but not bitten. Mrs. Hundley is a sister of Dr. O. C. Wright, former president of the Virginia Medical Society.

Saved Many from Death

W. L. Mock, of Mock, Ark., believes he has saved many lives in his 25 years of experience in the drug business. "What I always like to do," he writes, "is to recommend Dr. King's New Discovery for weak, sore lungs, hard colds, hoarseness, obstinate coughs, la grippe, croup, asthma or other bronchial affection, for I feel sure that a number of my neighbors are alive and well today because they took my advice to use it. I honestly believe its the best throat and lung medicine that's made." Easy to prove he's right. Get a trial bottle free, or regular 50c. or $1.00 bottle. Guaranteed by R. R. Bellamy.

SOCIETY

HOW TO MANAGE A HUSBAND.

Oh, a man is very easy
To be managed, once you know
Exactly how to pull the lines
The way you'd have him go!

II

Don't ever jerk them harshly—
For then you'll make him balk,
Don't always keep him in a trot,
Sometimes he likes to walk.

III.

If he starts to cut up ugly—
Don't pull upon the bit.
The sooner you use gentle means,
The sooner he will quit.

IV.

Be sure to keep him fat and slick
And feed him every day,
He will not then be apt to kick—
Nor want to run away.

—L. H. F. in Charlotte Observer.

Oxford, N. C.

Mrs. M. E. Keathley left last night for Washington, D. C., where she will spend the Winter with her daughter.

* * *

Miss Lillian McDonald has returned to her home in Goldsboro, after a visit to the Misses Fleet, on South Fifth street.

* * *

Mr. and Mrs. R. W. Farmer returned yesterday morning from Atlantic City, N. J., where they spent a short time.

* * *

Mr. Henry G. Fennell, formerly of Wilmington, but now of Atlanta, Ga., is spending a few days in the city and has been most cordially greeted by many friends.

CELEBRATE THEIR SLIVER WEDDING ANNIVERSARY

Mr. and Mrs. J. W. Duls celebrated their silver wedding anniversary from 4 o'clock yesterday afternoon until 11 last night, during which time a large number of their friends called to congratulate them and to wish for them many more yearse of happy married life.

The home was prettily decorated throughout in a yellow and white color scheme and presented a very attractive appearance under the soft glow of many lights. Mrs. Duls was handsomely gowned in a creation of gray satin and wore a silver wreath. Rev. W. A. Snyder made a short address and also a short prayer appropriate to the occasion. He also acted as toastmaster during the evening. Among those who gave toasts were Mr. C. W. Polvogt and Mr. J. H. Rehder, both of whom were ushers at Mr. and Mrs. Duls' wedding 35 years ago, Mr. John G. L. Geischen and others. Another very pleasing feature of the occasion was a touching little talk made by Mr. Ferdinand Duls, son of Mr. and Mrs. Duls, to his father and mother on behalf of their children.

Delightful refreshments were served during the afternoon and evening, and it was with genuine regret that the guests took leave of their hospitable host and hostess, showering upon them their congratulations and best wishes for the years that are to come.

MR. CANTWELL CLAIMS BRIDE IN "LAND OF THE FLOWERS."

Many friends of the groom in this city will read with interest the following account of the marriage of Mr. R. C. Cantwell, Jr., and Miss Elizabeth Clark Ashmead, celebrated in Jacksonville, Fla., Wednesday, which is from Thursday's Jacksonville Metropolis:

"Today, at high noon, at the handsome home of Dr. and Mrs. Jay H. Durkee, on Ocean street, a beautiful wedding was solemnized, the contracting parties being Miss Elizabeth Clark Ashmead and Mr. Robert Calder Cantwell, Jr., of Wilmington, N. C.

"The entire lower floor was banked with palms and ferns, and in the drawing room was a canopy formed of bamboo, under which the bridal party stood, while Rev. Van Winder Shields performed the impressive ceremony. The lights covered in rose and crystal shades, cast a soft glow over the pretty scene.

"The banisters of the broad stairway were trimmed in bamboo.

"Miss Ruth Daniels presided at the piano, and accompanied Miss Adele Smith, who sang 'O Promise Me' just before the ceremony.

"Promptly at 12 o'clock the bridal party descended the stairs to the Bridal Chorus from Lohengrin.

"First came the little flower girls, Misses Margaret and Cordelia Durkee, wearing dainty white lingerie frocks, with yellow ribbons and carrying Marechal Niel roses.

"Miss Theo Cantwell, sister of the groom, who was maid of honor, came next. She wore white mull stenciled in pale yellow roses, with yellow messaline folds and carried white roses. A picture hat of white lace, bound in black velvet, completed this pretty costume.

"The bride followed on the arm of her uncle, Mr. John Clark, and they met the groom and his best man, Mr. Frank Cassidy, at the improvised altar, in the drawing room. She was given away by Mrs. Joseph Durkee.

"The bride is a pretty brunette, and was radiant in a dark blue coat suit, with a draped toque of a lighter shade of velvet. Her bouquet was bride's roses, with a shower of lilies of the valley. For an ornament she wore her father's wedding gift to her mother, a lovely gold rose, with a diamond center, also the gift of the groom, a diamond and oliverine pendant.

"After receiving the congratulations and best wishes of their many friends they repaired to the dining room, where a delicious buffet luncheon was served.

"The table was laid with exquisite lace mats, and in the center was a large cut glass vase of bride's roses and ferns. The bride's cake, beautifully iced, occupied one end of the table.

"Mrs. Joseph Durkee was gowned in violet satin, veiled in black chiffon with trimmings of Maltese lace.

"Mrs. Jay H. Durkee's gown was of pearl gray satin, striped in black and trimmed in black silk fringe.

"Mrs. Robert C. Cantwell, of Wilmington, mother of the groom, wore black satin, striped marquisette over blue and elaborately trimmed in heavy black lace.

"Mr. and Mrs. Robert Calder Cantwell, Jr., sailed this afternoon on the Apache for New York. After a honeymoon there they will be at home in Wilmington, N. C.

"The bride is an extremely sweet and charming young woman, and her many friends sincerely regret that she will make her home elsewhere.

"Mr. Cantwell is a prominent young lumberman in Wilmington, with a host of warm friends, who will give his fair young bride a most cordial welcome."

PERSONAL PARAGRAPHS.

—Mr. and Mrs. E. T. Pullen, of Burgaw, were guests at The Orton yesterday.

—Mr. E. S. Smith, of Marines, Onslow county, was a visitor to the city yesterday.

---Among last night's arrivals at The Orton were A. G. Gump, of Baltimore, and W. A. Murray, of Mebane, N. C.

—Mrs. Kate E. Griswold, of the Southport News, was a visitor in the city yesterday, stopping at The Orton.

—Collector of Customs B. F. Keith and Brooke G. Empie, Esq., returned yesterday from a successful hunting expedition up the A. & Y. railroad.

---Yesterday's Rocky Mount Telegram: "Mr. W. B. Darrow returned yesterday from Wilmington where he has been for a couple of days on railroad business."

—Among the arrivals at The Orton yesterday were: J. D. Welkins, Grensboro; H. W. Ambrose, Conway, S. C.; P. R. Rhodes, Charlotte; R. C. Powell, Whiteville; L. J. Sloan, Wallace.

---Among the arrivals at The Southern yesterday were: S. M. Monroe, Fayetteville; J. H. Capell, Florence, S. C.; A. S. Lee, Pollocksville; Chas. Moore, Rocky Mount; C. W. Lyon, Kelley; R. D. Pridgen, Currie.

---Mr. F. E. Walker, of the gas sales department of the Tidewater Power Company, returned to the city late Thursday night from Charlotte, where he attended the funeral of his grandmother, Mrs. M. J. Hannon, Wednesday afternoon.

LOCAL DOTS.

—Deputy Sheriff W. J. McEwen, of Bladen county, passed through the city yesterday on his way to Goldsboro, with Jeff Eady, an insane negro, of Abbottsburg, whom he was taking to the asylum there.

---An automobile owned and driven by Mr. Percy W. Wells, of the Bijou Theatre, and a bicycle ridden by a negro boy collided at corner of Second and Princess streets yesterday morning. The bicycle was badly damaged and the negro's leg was run over, but he was not seriously hurt.

184 MILES FROM FINISH.

Aviator Rodgers Makes 133 Miles in 125 Minutes.

Imperial Junction, Cal., Nov. 3.—Calbraith P. Rodgers, the trans-continental flyer, arrived here at 10:27 A. M. today, 184 miles from the finish of his ocean-to-ocean flight, which began at Sheepshead Bay, N. Y., September 17th. Engine trouble brought him down, but not until he had established what is believed to be a new world's record in aviation.

Rodgers flew 133 miles from Stoval Siding, Ariz., the desert water tank, where he was forced to spend last night, in 125 minutes, using 15 gallons of gasoline. Rodgers started out to fly the entire 317 miles from Stoval Siding to Pasadena without a stop, but when he arrived over this place his motor was "missing" badly and he was forced to alight.

His mechanicians arrived shortly afterward on the aviator's special train and went to work on the motor, but the engine was in such condition that Rodgers thought it impossible to make Pasadena before tomorrow afternoon. It is possible that his arrival may be further delayed until Sunday.

WOMAN JURY FREES EDITOR.

Californians Refuse to Punish Man Who Printed Profane Remarks.

(Special to Washington Post.)

Los Angeles, Cal., Nov. 2.—California's first jury composed exclusively of women tried A. A. King, editor of the Watts News, on a charge of publishing an obscene and indecent newspaper. Within 20 minutes after taking the case the jurors returned a verdict of not guilty.

King accused the town trustee of applying profane epithets to him, printing the exact epithets. Thirty-six women summoned for jury duty responded. When the 12 were chosen the case went to trial and witnesses repeated the words used. The women heard the profanity without murmur.

The jurors said afterward that the language was profane simply, and not obscene, and was less of a shock when read in a newspaper than when heard from men in the streets.

"Yet such men," said one juror, "never are arrested. Why should we punish the editor?"

When King was acquitted the women cheered.

TEXAS FEVER QUARANTINE

Cattle from Many Counties in State Will Be Prohibited

(Special Star Telegram.)

Washington, D. C., Nov. 3.—The following counties were quarantined today for Texas fever: Moore, Harnett, Johnston, Wilson, Northampton, Hertford, Bertie, Gates, Chowan, Perquimans, Pasquotank, Camden, Currituck, Edgecombe, Martin, Washington, Tyrrell, Dare, Hyde, Beaufort, Pitt, Wayne, Sampson, Cumberland, Scotland, Robeson, Bladen, Greene, Lenoir, Craven, Pamlco, Carteret, Jones, Duplin, Onslow, Pender, Columbus, Brunswick and New Hanover.

Cattle shall only be moved or allowed to move inter-State to points outside of the quarantine area in accordance with the regulations for immediate slaughter. H. E. C. B.

..Theatrical..

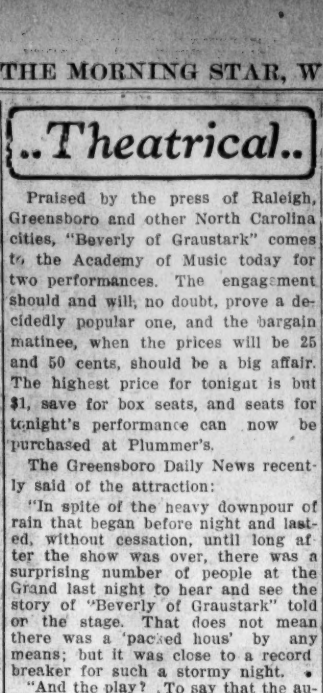
Praised by the press of Raleigh, Greensboro and other North Carolina cities, "Beverly of Graustark" comes to the Academy of Music today for two performances. The engagement should and will, no doubt, prove a decidedly popular one, and the bargain matinee, when the prices will be 25 and 50 cents, should be a big affair. The highest price for tonigut is but $1, save for box seats, and seats for tonight's performance can now be purchased at Plummer's.

The Greensboro Daily News recently said of the attraction:

"In spite of the heavy downpour of rain that began before night and lasted, without cessation, until long after the show was over, there was a surprising number of people at the Grand last night to hear and see the story of "Beverly of Graustark" told on the stage. That does not mean there was a 'packed hous' by any means; but it was close to a record breaker for such a stormy night.

"And the play? To say that the audience present enjoyed every moment of it would be telling a simple truth. In writing the story George Barr McCutcheon put just enough comedy in it to relieve the tenseness of the thread of love and the seriousness of armed conflict by which adds to the state of uncertainty. The comedy role was in the hands of 'Aunt Fanny,' a negro character, the servant of Beverly. This part was played by Miss Eva Benton and she combined looks with clever interpretation of negro characteristics. She was especially fine in portraying the feelings of a negro in a strange land longing for a home.

"The two central characters were



MISS DOROTHY REDDING.
Charming Young Actress to be Seen in Title Role of "Beverly of Graustark."

Miss Dorothy Redding, as Beverly Calhoun, and Robert Lawrence, as Baldos, the mountaineer (in reality Prince Danton in exile). Beverly, a clever American girl, was mistaken by the exile prince as the princess of Graustark. Neither knew the identity of the other, but each falls in love with the other, and from that point the plot thickens and grows in intensity. Eeverly is the guest of the real princess, and Baldos is enlisted in the cause of her country. Numerous and serious complications arise and just as Baldos is about to be shot as a traitor by order of the princess, his identity and his valuable services become known, the war clouds lift, peace is restored, Graustark is saved, love is enthroned in two hearts and Aunt Fanny, with groans of disappointment is forced to face an indefinite postponement of her desired trip back to America. The show is a clever one, intelligently portrayed throughout and and staged with most attractively special scenery. The repeated applause last night bespoke a highly pleased audience."

"The Rosary."

Whatever else may be said of Rowland & Clifford's new production "The Rosary," which comes to the Academy next Wednesday for matinee and night., the charge of imitation of other plays cannot be made. "The Rosary" virtually breaks new ground in the dramatic field and should prove a veritable surprise when the curtain rises upon it.

The play is built upon a thoroughly modern theme, viz: the influence of thought upon the lives and well-being of the men and women of our present day.

That thought, intangible and evanscent as it is, is still a force, a power, a theory that has for some time past engaged the serious attention of our foremost psychologists, but its portrayal upon the stage has been neglected heretofore.

"The Rosary" attacks the theme boldly. It deals with the lives and fortunes of a little group of people living in the beautiful West Chester country near New York city. The husband is a disbeliever in all religion; his wife, a woman of serious conviction regarding faith in the things of life unseen. Strong in his belief and thoroughly human, a priest moves through the subtle story of this play. When doubts come and the man and woman's lives are shattered, seemingly beyond human power to repair, this priest analyzes the situation and by the power of his faith brings both the people whom he loves back to happiness.

Mingled with the darker colors of human tragedy is a vein of natural comedy evolved from the events which occur during the action.

Seats for the night performance will go on sale at Plummer's Tuesday morning. The matinee tickets will be obtainable at the theatre, as it will be a bargain matinee, with prices 25 and 50 cents.

At the Bijou.

A simply "immense" Saturday is ready for Bijou-lovers, whose name is legion. Their jolly, favorite amusement spot has prepared something big, wholesome and rich for their delight today and will serve it up in the very best style, according to the invariable way of doing things at the popular Bijou. It is going to be a great week-end, one that will make a fitting climax of a glorious week, and regardless of the weather the Bijou will be found most comfortable. The Bijou is a knocker-out of blues and a killer of the drear spirit. Today's programme consists of something to please all. Not only will films of strong dramatic nature be presented and the most laughable of smile-pictures offered, but there will be much novelty, to say nothing of a new and jolly musical bill. Those who miss today's Bijou bill will indeed go minus a big chunk of joy.

At The Grand.

Crowds are flocking to The Grand these days, because nowhere in Wilmington can they sit comfortably and keep warm while the weather is chilly on the outside. The pictures for today and this evening will be three in number, with "Grandfather's Violin" as the head liner. This is a very interesting drama depicted upon a high-class Pathe film that is sure to please. Another feature film will be "A Rural Conquerer," a Lubin film, the picture as "clear as a bell." This latter film is a great comedy offering and is sure to please the most fastidious.

SUNDAY SERVICES.

Announcement by Wilmington Pastors for Services Tomorrow.

St. Andrew's Presbyterian Church, corner Fourth and Campbell streets, Rev. Alex. D. McClure, D. D., Pastor.—Sabbath services at 11 A. M. and 7:30 P. M.; Sabbath school at 4 P. M.; W. C. E. Society at 7 P. M. Prayer meeting and lecture Wednesday at 8 P. M. The public cordially invited. Seats free.

First Presbyterian church, corner Third and Orange streets, Rev. J. M. Wells, pastor.—Services tomorrow, Sunday, at 11 A. M., conducted by the pastor, and at 8 P. M. by Rev. J. M. Plowden. Sunday school at 3:30 P. M. and Christian Endeavor Society at 7:15 P. M. Mid-week prayer service at 8 o'clock Wednesday evening. Visitors cordially welcomed.

Dr. J. M. Wells will preach tomorrow night at 8 o'clock at the Chadbourn Memorial chapel at Winter Park Gardens.

THE McNAMARA TRIAL

Adjourned Yesterday Until Monday---Another Venire

Los Angeles, Nov. 3.—Through a variety of details the McNamara trial wound its way today and adjourned until Monday with the status quo unchanged, eleven talesmen passed for cause and one still needed before peremptory challenge can be exercised by either side.

James B. McNamara, on trial on indictments for fatalities resulting from the explosion of the Los Angeles Times a year ago, was himself an indifferent auditor.

Practically the entire day's session was occupied with determining the eligibility of Talesman S. V. Blenkiron, who was challenged by the State for cause.

With the venires of 205 talesmen thus far exhausted, Judge Bordwell ordered another venire of forty and will hear preliminary excuses tomorrow. Curiously enough Harry Chandler, son-in-law of General Harrison Gray Otis, proprietor of the Los Angeles Times, and himself the vice president of the Times Company, appears upon the last venire.

You get double your money's worth in hearing good music at The Grand. **

HERE is a new-idea underwear, that is the last word in warmth, comfort and durability.

TWOLAYR
Fleece-Lined Underwear

TWOLAYR is medium in weight, yet it is equal in warmth to the heavy, bulky underwears. That is because it is scientifically constructed (note the diagram). The inner fleece fabric (3) is luxurious to the skin. The outer ribbed fabric (1) gives Twolayr a smooth and easy fit. The air space (2) supplies warmth and keeps the inner fleece soft and dry.

NO FRESHNESS IN COTTON

Prices Fluctuated Within a Range of Eight or Nine Points—Close Was Steady at a Net Gain—97,722 Bales Received.

New York, Nov. 3.—No fresh feature of importance developed in the cotton market during today's trading and prices fluctuated within a range of 8 or 9 points. The close was steady at a net gain of 1 to 4 points and the comparatively small business was supposed to be largely in the way of evening up for over the week-end, or pending some new development in the Southern spot situation.

The market opened steady at unchanged prices to an advance of 4 points in response to rather better cables than looked for, but quickly weakened and during the first few minutes sold 2 to 4 points below the closing figures of last night, under Southern offerings, scattering liquidation and local bear pressure, encouraged by the expectation of bearish week-end figures, bearish China trade reports and prospects for better weather in the South. Under nine cents for January, however, the market seemed to meet a good deal of demand, just as it had done recently around that level and during the middle of the day prices worked 3 to 7 points higher on covering of shorts, and moderate support from trade sources, while there was also some foreign buying which was supposed to be against sales in Liverpool. Offerings increasing above nine cents for January, sending the market back to about the closing figures of yesterday and fluctuations in the late trading were narrow and irregular, with business quiet and with the trade evidently waiting for the Southern spot situation to furnish some fresh incentive. Some private wires were received to the effect that cotton was offering more freely in the South, but the Southern spot markets officially reported early showed no particular tendency and the resistance that the market has shown around the nine cent level for the past week or more seems to have dispersed traders in the contract market to operate cautiously, and allow the South to take the leadership in the matter of fixing prices for the time being. Nothing further developed with reference to the probable showing of the census report next Wednesday and the trade seemed prepared for a ginning of approximately ten million bales.

Receipts of cotton at the ports today 94,722 bales against 77,566 last week and 46,420 last year. Today's receipts at New Orleans 13,740 bales against 6,188 last year, and at Houston 9,962 bales against 10,974 last year.

New York, November 3.—Spot cotton closed dull, five points higher; middling uplands, 9.45; do. gulf, 9.70; no sales.

Futures closed steady.

Texas City	175,681
Minor Ports	1,248
Total bales	3,535,315

WEEKLY COTTON REVIEW

Southern Spot Markets Have Latterly Been Firmer With a Good European Demand Reported at Some Points

New York, Nov. 3.—Cotton has been irregular under the sway of conflicting influences, now of big receipts and increasing estimates of the size of the crop, and now of killing frost, manipulation of December with talk of a possible squeeze of the shorts in that month, and some pretty plain indications that in the neighborhood of nine cents, spinners are disposed to buy freely. The Governors' meeting at New Orleans had some effect though it has not been marked. Nor has the rumor that European bankers may finance 2,000,000 bales been taken very seriously nor the estimate from the New Orleans convention of 13,740,000 bales as the world's consumption of American cotton. But growing evidence of a restiveness of Southern farmers under the continued decline in prices which has sent quotations of some months well below the nine cent level and of an increasing disposition in some sections of the belt to hold back cotton, have certainly not been without some effect.

Southern spot markets have latterly been firmer with a good European demand reported at some interior points of which the basis is noticeably better than it was recently. Spinners have bought more freely. Continental spinners have been buying here. Some large spot houses have been good buyers. Liverpool's daily spot sales have latterly doubled. Shorts, big and little, have become uneasy under the resistance met to a further decline after the price had broken through nine cents to a new low level and have latterly covered freely. These include Waldorf-Astoria interests and other identified with the short side. Wall street houses have bought for both sides of the account. Southern and Fall River mills are running on full time. The drift of things in the dry goods trade is towards improvement. Stocks of dry goods, in the hands of distributors are 30 per cent. smaller than last year.

The woolen industry is wakening up. A severe freeze has latterly threatened important tracts of the belt in the southwest and elsewhere. There will be little top crop. On the other hand the receipts have been at times enormous and spot houses in control of the December option have been quietly selling in and buying later months. It is contended that 75 per cent. of the crop has been picked and that frost can do comparatively little harm as the rest is open. Much of the time the weather has been reported very favorable for picking and marketing. Manchester has been dull, feeling the effects of the news from China. Unsettlement in that country it is feared, may have a bad effect on trade, and China is next to the largest of Manchester's customers. Those who believe in lower prices insist that the low of supply and demand and not governors' conventions must fix the price and that artificial interference with the normal course of trade is likely in the end to do more harm rather than good. However, this may be the undertone, of late it has been steadier. The spinner is less afraid to buy than he was a while back. The market shows more resistance around the nine-cent level in spite of the big ginning figures, Liverpool reports that China is sending very few cancellations of orders. Covering of shorts here and buying by big trade interests have neutralized the effect of the weight of the crop.

November export engagements are said to be larger.

WEEKLY REVIEW OF TRADE.

Trade Continues to Exhibit Quickening Spirit.

New York, Nov. 3.—R. G. Dun & Company's weekly Review of Trade tomorrow will say:

The volume of business is of fair amount and trade continues to exhibit a quickening spirit; in most lines it is still below producing capacity, only consisting of supplying of immediate necessities.

Orders for steel products booked by the leading interests during October are estimated to have been the largest, with one exception, in any month this year. The transporting companies also are making purchases of needed equipment contracts for some ten thousand cars having been placed in the past week, while about half that number are under negotiations. A fair tonnage of structural material is called for, but plates are inactive.

The movement of dry goods continues very steady. Export to the far East are at a standstill, owing to the Chinese complications, but the miscellaneous trade is steady and shipments still show a substantial increase over a year ago.

Footwear jobbers are holding off until assured that the late advances asked by manufacturers are to be maintained and are not disposed to place more than supplementary contracts for Winter goods; business for Spring delivery has not been in very large volume as yet.

LIVERPOOL COTTON MARKET

Liverpool, Nov. 3.—Cotton, spot in fair demand, prices unchanged; American middling fair 5.67, good middling 5.31, middling 5.17, low middling 5.07, good ordinary 4.93, ordinary 4.73.

The sales of the day were 8,000 bales of which 700 were for speculation and export and included 7,600 American. Receipts 17,000 bales including 16,800 American. American futures opened quiet and steady and closed steady. Nov. 4.99; Nov. and Dec. 4.91 1-2; Dec. and Jan. 4.91 1-2; Jan. and Feb. 4.93; Feb. and March 4.94 1-2; March and April 4.96; April and May 4.97 1-2; May and June 4.99; June and July 5.00; July and August 5.01; August and Sept. 4.99; Sept. and Oct. 4.97; Oct. and Nov. 6.96.

RAISED PRICES IN STOCKS

Aggressive Buying Raised Prices Early in the Week, But Was Largely Suspended Today—Demand Was Heavy

New York, Nov. 3.—The aggressive buying of stocks which raised prices rapidly earlier in the week, was largely suspended today. Quotations moved uncertainly ranging at times above yesterday's closing and again below it. During most of the day, however, prices were higher. The pause in the advance suggested hesitation as to the extent of the improvement justified at this time, rather than change in sentiment.

Continuation of realizing sales was a material factor in the course of the market. Profit-taking has been carried on so extensively that it is now generally assumed that the short interest, particularly in United States Steel and three or four active stocks, has been reduced materially. The moderation of the demand for the speculative leaders today doubtless was due to this condition. To some extent this tendency was offset by the increasing prominence of conservative railroad stocks in the trading. The demand for the high-priced dividend paying issues was heaviest. Investment buying of this nature helped to sustain the market.

Reading rose 3 1-4 per cent. to 1.45 3-4. It was the strongest among the principal stocks, and was unaffected by the re-current intervals of depression elsewhere in the market. Canadian Pacific and Erie, which have been associated from time to time in reports of a fusion of interests were exceptionally strong. American Smelting halted after its swift advance. For a time it sold at 69, the highest of the movement, but it fell back and closed with a net loss. United States Steel apparently has resumed its normal place in speculation, showing no further effects of the dissolution suit.

The hardening in loans during the last day or two was followed today by a relaxation of rates, in spite of loss of cash by the banks. Preliminary estimates, based on the known movements of money, indicate a loss for the week of about $300,000.

Trading in bonds contracted today. The tone was firm. Total sales par value $2,946,000. United States bonds unchanged on call. Total sales for the day 489,300 shares.

THE GRAIN MARKET.

Chicago, November 3.—No. 2, red, 95@96; No. 3, red, 93@95; No. 2, hard, 98@1.02; No. 3, hard, 92@1.00; No. 1, northern, 1.07@1.09; No. 2, northern, 1.04@1.07; No. 3, northern, 1.02@1.05; No. 2, spring, 1.00@1.04; No. 3, spring, 95@1.04; No. 4, spring, 90@1.02; velvet chaff, 95@1.04; durum, 90@1.04.

Corn—No. 2, 73@74; No. 2, white, 73¾@74¼; No. 2, yellow, 73¾@74¼; No. 3, 72¾@73½; No. 3, white, 73@73½; No. 3, yellow, 73½@74; No. 4, 72¼@73; No. 4, new, 64@64*; No. 4, white, 72*@73¼; No. 4, white, new, 64@65; No. 4, yellow, 72½@73.

Oats—No. 2, white, 47@48; No. 3, white, 46¼@47; No. 4, white, 45¼@46; standard, 46½@47½.

Chicago, November 3.—Weak owners sacrificed wheat today wholesale. In the resulting price tumbling, one dealer was forced to suspend, and another had to transfer all trades to houses possessing more capital. Fear of the effects of the Federal probe caused the break in the market. The close was nervous, ⅞@1⅛ to 1¼c. under last night. Corn showed a net gain of ¼ to ⅝c. and oats an advance of ⅛@⅜ to ⅝. In hog products latest trades varied from a shade decline to a gain of 5@7½.

	Open.	High.	Low.	Close
Wheat:				
Dec	94½	94⅞	93⅝	94⅛
May	1.00*	1.00¾	99¾	1.00¼

WORLD'S VISIBLE SUPPLY

Issued By Secretary Hester Is 3,606,036 Bales

New Orleans, Nov. 3.—Secretary Hester's statement of the world's visible supply of cotton issued today shows the total visible is 3,606,036 against 3,356,313 last week, and 3,293,603 last year. Of this the total of American cotton is 3,064,036 against 2,819,313 last week and 2,647,603 last year. Of all other kinds including Egypt, Brazil, India, etc., 512,000 against 537,000 last week, and 646,000 last year.

Of the world's visible supply of cotton there is now afloat and held in Great Britain and continental Europe 1,287,000 against 1,847,000 last year. In Egypt 115,000 against 116,000 last year. In India 222,000 and 162,000 last year, and in the United States 1,482,000 against 1,149,000 last year.

THE NAVAL STORES MARKET.

Savannah, November 3.—Spirits turpentine, firm, 46@46¼; sales, 322; receipts, 695; shipments, 701; stocks, 37,143; rosin, firm; sales, 1,553; receipts, 2,706; shipments, 1,052; stocks, 88,055. Quote: B, 6.25; D, 6.30; E, 6.40; F, G, H and I, 6.45; K, 6.50; M, 6.55; W G, 7.25; W W, 7.55.

Charleston, November 3. — Turpentine, firm, at 45@45½.

Rosin—Firm. Quote: A, B and C, 6.17½; D, 6.22; E, 6.30; F, 6.37½; G, 6.37½; H, 6.37½; I, 6.37½; K, 6.45@6.47½; M, 6.45@6.47½; I, 6.65; W G, 7.20; W W, 7.55.

THE DRY GOODS MARKET

New York, Nov. 3.—At the carpet auction during the day the prices secured were higher than those paid at the opening on numbers of similar character offered. Cotton goods trading was quiet for the day with prices showing a slightly steadier trend. Yarns are easy with trading light. Messaline in silks are being called for Spring delivery.

THE FINANCIAL MARKET.

New York, November 3.—Money on call, steady, 2@2½ per cent. Ruling rate, 2½; closing bid, 2; offered at 2½. Time loans, steady; sixty days, 3¼@3½ per cent., and ninety days, 3½; six months, 3½@4¼.

Prime mercantile paper, 4½@4½; sterling exchange, steady, with actual business in bankers' bills at 4.83@75 for sixty days and at 4.86@90 for demand. Commercial bills, 4.83; bar silver, 54⅝; Mexican dollars, 46.

"BUSINESS DEPRESSION"

Washington Correspondent Says It's The Cry of "Wolfe" Again

(By Clyde H. Tavenner).

Washington, Nov. 3.—The trust game of bringing out the old Bogey Man called "Business Depression"—who always is kept right up in the front part of the stage whenever an election approaches—is being played again. From Wall street comes the cry that Democratic investigations, and Supreme Court decisions, and the cry for low tariff, and a dozen other such calamities are constantly threatening business.

The purpose of these wails, it is becoming more and more apparent, is to gradually frighten the voters of the country into a ministration which will cut the high tariff duties.

The trusts pretend to be greatly wrought up over recent suits against some of their number. They pretend, for instance, to be in a panic because of the suit against the Steel Trust, and are trying to make the country believe such activities as these against Big Business will result in a general industrial depression.

And while they are sending out these alarms they know that the suit against the Steel Trust will amount to nothing as long as a Republican administration is in power to prosecute it. Similar suits were filed against the Beef Trust by a Republican Attorney-General eight years ago, and that suit hasn't progressed an inch since it was filed, notwithstanding that it has been held up dozens of times as a "horrible example" of the way the politicians were disturbing business.

If the suit against the Steel Trust were prosecuted with all reasonable despatch it would require two or three years to get it before the Supreme Court, hence the cry that this suit "alarms business" becomes ridiculous.

The real reason business is alarmed, if it is true that business is alarmed—which is a question that is open to argument—is the fear of those business men who operate on a moderate scale that the money trust is getting a grip on the industrial situation which no political party will be able to break. These small business men are apprehensive only in the degree that they fear the money trust controlled by Morgan, will make some move to discipline those who are crying for a low tariff, and for some relief from the abnormally high cost of living.

The Morgan crowd is standpat Republican to the core, and regardless of what Wall street talks about now, there is little doubt that what it is thinking about is the possibility of a tariff cut by the Democrats. To forestall this menace the billionaires are stirring up the old cry of "danger to business," and getting ready to make their usual attempt to coerce another standpat Republican victory a year from now.

The tariff is still the issue on which the two parties must fight it out next year. Knowing this, Wall street is already laying plans, and since the only weapon these money barons know how to use, since they have neither facts nor justice to aid them, is the threat of slack business. Their present wails simply are practice stunts to get the old bogey in working order for the coming campaign.

THE SEABOARD WRECK.

Track Cleared Near Raleigh Yesterday—The Injured Persons.

(Special Star Correspondence.)

Raleigh, N. C., Nov. 3.—The blockade of the main line track of the Seaboard Air Line at Merry Oaks last night by the wrecking of Train No. 43, New York to Jacksonville, Fla., was cleared early today and the detouring of trains over the Southern Railway, via Selma to Raleigh, was discontinued. A split switch caused the cars to leave the track, precipitating the smash-up. While there were 18 persons reported injured, the Seaboard authorities announce that only one was injured to the extent of having hospital treatment or delaying their travel at all. This is H. B. White, whose address is not learned. He is being treated in the Sanford hospital for a number of right severe bruises. The other injured are:

G. T. Cashwell, express messenger, Washington, D. C., bruised side and arms; H. L. Roswell, mail clerk, Washington, D. C., bruised knee; Miss N. Doyle, Quincy, Mass., left knee injured; L. R. Tindall, Washington, D. C., shin bruised and scalp wound; Frank Strouner, Brockton, N. Y., shoulder sprained; W. H. Pawe, Camden, S. C., ank'e sprained; Mrs. W. G. Murray, St. Petersburg, Fla., left hip, arm and leg bruised; W. G. Theatt, Richmond, Va., side, arm and knee bruised; Dr. F. C. Hoke and wife, no address, slight bruises; Mrs. H. L. Bruister, Rochester, N. Y., neck sprained; Miss Sarah Long, Syracuse, N. Y., left shoulder and knee bruised; M. H. King, mail clerk, Washington, D. C., arm and collar bone bruised; Mrs. R. W. Thompson, St. Petersburg, Fla., left leg bruised; Nathan Kaughman, Baltimore, knee bruised; J. H. Bryan, Richmond, a number of slight bruises.

NEW COMPANY.

F. W. Woolworth, of Chicago, Says New Corporation Will be Formed.

New York, Nov. 3.—F. W. Woolworth announced today that a new corporation is about to be formed under the name of "F. W. Woolworth Company," to take over the business conducted in various vities under the corporate or firm names of F. W. Woolworth & Company, S. H. Knox & Company, F. M. Kirby & Company, E. P. Charlton & Company, C. S. Woolworth W. H. Moore and W. H. Moore & Son, and also a controlling interest in the English business of F. W. Woolworth & Company, Ltd.

This new company will own and control over 600 Five and Ten Cent stores doing business in all parts of the United States and in Canada and England. The capitalization of the new company is to be $15,000,000, 7 per cent. preferred stock and $50,000,000 common stock.

GOOD ROADS SCOUTS

Reached Pinehurst and Left for Raleigh and Fayetteville

(Special to News and Observer).

Pinehurst, N. C., Nov. 2.—The good roads scouts of the Touring Club of America, who are laying out a route for tourists to the Richmond convention, arrived at Pinehurst tonight at seven o'clock, having covered 175 miles today of fair to good sand-clay roads. The best of which was the last ten miles which was built and maintained by Leonard Tufts, president of the Capital Highway Association. It is best because it is dragged frequently. The cost of maintenance being the ridiculously low sum of five dollars per mile per annum. The party will leave at 7 o'clock tomorrow morning for Fayetteville and Raleigh.

Fayetteville, N. C., Nov. 3.—The Observer this afternoon says:

"Three big scout cars arrived here this morning about 11:15 form Raeford on a tour of inspection of the roads between Atlanta and Richmond, in anticipation of the trip to be taken November 20th from New York to Atlanta. The route chosen will be adopted as "The Capital Highway," to be used by automobile tourists from New York to Southern cities.

"These scout cars contained representatives from the Automobile Blue Book, American Association for Highway Improvement, North Carolina Highway Improvement Association, American Touring Club and Capital Highway Association, with press representatives from Richmond and Atlanta and from the Chambers of Commerce of Atlanta and Richmond. Following are those in the party: H. B. Varner, Lexington, N. C., president North Carolina Highway Improvement Association; Col. Henry McNair, New York, editor of the Automobile Blue Book; Mr. H. Elliott, New York, secretary of the Touring Club of America; W. Douglas Gordon, Richmond, Va., police commissioner and press representative Richmond Times-Dispatch; Lee A. Folger, Richmond, Va., Southern representative Gordon Motor Co.; D. D. Armstrong, Atlanta, Southern vice president Touring Club of America; C. T. Oly, Racine, Wis., factory representative Mitchell Touring Car Co.; W. A. Vibbert, New York, official photographer; Freeman Monroe, Detroit, Mich., factory representative Chalmers touring car.

"The party left Atlanta on October 31st, and reached here on good time without any mishaps. They will reach Richmond tomorrow."

RICHMOND MAN SPEAKS.

Tells Raleigh Chamber of Commerce How to Build City.

(Special Star Correspondence.)

Raleigh, N. C., Nov. 3.—A stirring address by Secretary William C. Dabney, of the Richmond, Va., Chamber of Commerce, was enthusiastically received last night by a big audience of members of the Raleigh Chamber of Commerce and other citizens. His theme was "Co-operation." He indicated many avenues of co-operation of citizens and the commercial and other organizations of a city that would yield great results in financial and social betterment. He declared that hearty co-operation of Richmond newspapers has been an inestimable factor in the progress that city has made. He advised Raleigh to follow Richmond's example and steer clear of propositions to move factories to the city unless there was clear economic reasons why the business would be better in Raleigh than it had been where the factory was proposed to be moved from. President H. E. Litchford, of the Raleigh Chamber of Commerce, expressed the greatest satisfaction at the splendid turnout there was for the meeting. There was an orchestra on hand to furnish music, and there were boxes and boxes of extra cigars.

DIVORCE SUIT FILED.

Sensational Allegations Are Made by Husband—Co-respondents.

(Special Star Correspondence.)

Durham, N. C., Nov. 3.—John W. Burroughs, a prominent citizen of Durham, and lessee of the Academy of Music, yesterday filed complaint in the clerk's office against his wife, Kate Wilson Burroughs, for absolute divorce on the ground of marital infidelity.

Bryant & Brogden, attorneys, are representing Mr. Burroughs, and Manning & Everett the defendant. All allegations of infidelity in the case will be denied, and the co-respondent in the case has been named with broad charges with the "others" and the time of alleged impropriety was in the months of February and March. The case gives every promise of sensations unlimited, and the names of Durham men are to be bandied about according to the understanding now. The prominence of the parties gives it every element of sensationalism that it might lack. The case is set for the December term of court.

CROPS NOT HURT.

So Says an Atlanta Review of the Weather Conditions.

Atlanta, Ga., Nov. 3.—Frosts predicted for the South Atlantic and Gulf States for last night were prevented in most sections by high winds, according to reports received here from many points this morning.

While the weather was the coldest of the season, it is not believed that the crops suffered any material damage. Charlotte reported a mild frost with but little consequent damage to vegetation. The lowest temperatures recorded ranged from 29 degrees above zero at Charlotte to 52 above at Jacksonville.

A range of from 36 to 40 degrees above was recorded in Mississippi, Alabama and Louisiana. At Charleston the minimum temperature was 40 degrees, with no frost.

SOUTHERN GOOD ROADS.

Popular Awakening as to Necessity of Improved Highways.

(Special Star Correspondence.)

New York, Nov. 4.—When two Governors, one from the North and the other from the South, a National Senator second to none in prominence, and a senior State Senator, participate in a dinner given by leading officers of the American Automobile Association, which function resolved itself into a general discussion of good roads, some substantial results are assured in the fairly immediate future.

During the overnight stop of the A. A. A. reliability tour in Philadelphia, President Robert P. Hooper, Chairman Howard Longstreth, of the Touring Information Board, and Powell Evans, president of the Automobile Club, of Philadelphia, gave a dinner at the Union League with a list of guests which included Governor Tener, of Pennsylvania; Governor Smith, of Georgia; United States Senator Boies Penrose, and State Senator Sprou. On the same day, in the ride across New Jersey, Governor Wilson had been the guest of Governor Smith, who was a contestant in the A. A. A. tour. The next day Governor Tener, in his own car, carried Governor Smith to historic Gettysburg. When the tour entered West Virginia, Governor Glasscock became the companion of Georgia's chief executive.

It was the source of disappointment that Governor Mann, of Virginia, could not find it convenient to accompany the motor cavalcade through the Shenandoah Valley, especially on the mountainous journey from Staunton to Roanoke and then over the Blue Ridge into North Carolina. The "Old Dominion" Governor, through personal experience, would have realized the great need and value of a first-class inter-State highway through scenery remarkable for grandeur and beauty. But Governor Smith has a remedy which he will undoubtedly seek to apply when he takes his seat in the Senate at Washington, for he believes that a large part of the mountainous section of Virginia and North Carolina should be included in the extension of the conservation work of the Federal government. This would mean up-to-date roads with provision for their very essential maintenance which must follow.

In the talk at Philadelphia, it developed that Pennsylvania is greatly concerned in the building of roads that will make Gettysburg more accessible, though there is a pronounced feeling that the Lincoln Memorial Highway should be built from the National capital under Federal supervision. This gradual linking of North and South by roads deserving of the name unquestionably received a decided impetus at the Philadelphia gathering, which in time may come to be looked upon as having been of momentous weight in the progress of highway improvement. One of those present was P. J. Walker, president of the California State Automobile Association, who made it clear that the Pacific coast strongly believes in National highways which shall connect the Atlantic and Pacific seaboards. Charles J. Glidden, donor of the touring trophy bearing his name; Henry F. Walton, ex-speaker of the Pennsylvania House of Representatives, and A. G. Batcheld, A. A. A. executive committee chairman, were among the other guests.

One thing which greatly impressed the A. A. A. tourists, as they went farther Southward, was the widespread employment of convicts in road building. North Carolina is more than awake to the worth of roads; South Carolina is equally alive in adding to its improved mileage; Georgia has used convicts in over a hundred counties, and Florida is on the verge of State-wide roads agitation and betterment. President Hooper, of the A. A. A. believes that the South will outstrip many sections of country in securing comprehensive State road systems, mainly because of the employment of the convicts and the fact that the cotton farmers are buying automobiles in generous quantities and are considering motor trucks.

HOLD CONFERENCE.

Counsel in The American Tobacco Co.'s Suit Meet in Chambers.

New York, November 3.—Attorney General Wickersham, W. W. Fuller and Junius Parker, of counsel for the American Tobacco Company, and Lewis Cass Ledyard, chief of consulting attorneys, conferred today with Judge LaComb in chambers. According to District Attorney Wise, the tobacco attorneys and the attorney general appeared before Judge LaCombe, at his request. After the conference, Attorney General Wickersham was asked whether or not he could state when a decision would come down.

"That is a matter of which I cannot talk," he replied. "It entirely depends on the court. I do not wish to state my reasons for calling at this time.

The opinion is that the conference was for the purpose of submitting additional witnesses in the tobacco case.

$3.50 Recipe Free, For Weak Men.

Send Name and Address Today—You Can Have it Free and Be Strong and Vigorous.

I have in my possession a prescription for nervous debility, lack of vigor, weakened manhood, failing memory and lame back, brought on by excesses, unnatural drains, or the follies of youth, that has cured so many worn and nervous men right in their own homes—without any additional help or medicine—that I think every man who wishes to regain his manly power and virility, quickly and quietly, should have a copy. So I have determined to send a copy of the prescription free of charge, in a plain, ordinary sealed envelope to any man who will write me for it.

This prescription comes from a physician who has made a special study of men and I am convinced it is the surest-acting combination for the cure of deficient manhood and vigor failure ever put together.

I think I owe it to my fellow man to send them a copy in confidence, so that any man anywhere who is weak and discouraged with repeated failures may stop drugging himself with harmful patent medicines; secure what I believe is the quickest-acting restorative, upbuilding, SPOT-TOUCHING remedy ever devised, and so cure himself at home quietly and quickly. Just drop me a line like this: Dr. A. E. Robinson, 4163 Luck Building, Detroit, Mich., and I will send you a copy of this splendid recipe in a plain, ordinary envelope free of charge. A great many doctors would charge $3.00 to $5.00 for merely writing out a prescription like this—but I send it entirely free.

EMBEZZLED $1,050

Walter Calvin Will Be Arrested on Warrant of William F. Gordon

Richmond, Va., Nov. 3.—A warrant charging grand larceny was sworn out today by William F. Gordon, for the arrest of Walter Calvin, who is alleged to have embezzled the sum of $1,050 furnished him for the purchase of tickets to the world's series baseball games for speculating purposes. The proposition to deal in the tickets was made to Gordon by Calvin, who claimed that he would secure fifty to each of the seven games from Harry Davis, captain of the Philadelphia Athletics. Before the series opened Gordon sent a certified check on the American National Bank of Richmond for $1,050 made out in favor of Captain Harry Davis, Philadelphia Baseball Club. This check was subsequently deposited in Philadelphia, indorsed by "Captain Harry Davis, Philadelphia Baseball Club."

There is, of course, no charge against Davis, but the matter will be presented to the National Commission.

Capt. Davis Denies.

Philadelphia, Nov. 3.—Former Capt. Harry Davis of the Athletic Baseball Club, emphatically denied tonight that he had furnished or agreed to furnish Walter Calvin with any tickets to the world's series. Davis says he had met Calvin in Richmond during the Winter when he was there representing a Philadelphia sporting goods house and later when the Athletics team was coming north from Spring practice. That was the last time he had seen Calvin until a few days before the world's series games, when Calvin came to him and desired to purchase some seats. He told Calvin that he would be unable to get them, as each player was allowed 25 tickets and that it would require more than this number to accommodate his (Davis) personal friends here. Davis says that he signed the certified check as it was drawn and went with Calvin to the Northwest Trust Company, where he introduced Calvin and the latter deposited the check to his own credit.

Davis says that he has not seen Calvin since he went with him to the Trust Company to make the deposit. He says that he will be glad to appear before the National Commission and tell all he knows about the alleged scalping transaction.

BUILD UP YOUR CREDIT

Every man should build up as large a credit as he can. You may not now appreciate its value, but the time is coming when you will. Emergencies will arise when you will need a good credit and business friendships.

A BANK ACCOUNT is the very best way for an individual to establish a credit. Pay all bills promptly by check. It gives your creditors added confidence in you to know that you have the advice and support of a good bank. They will be willing to extend larger credits if you want them, knowing that you do business in accord with the most up-to-date methods.

Come here today and Open an Account.

AT THE SAME OLD STAND

with the Newest Goods in town. We have fewer pieces of furniture in our stock which were in it October 1st, and have received more new goods since October 1st, than any house in town. Our facilities for buying, our financial ability and standing, the confidence of manufacturers which we enjoy, give us special advantages in buying. We are tied to no one. We can and do buy where the best values are offered.

The advantage we possess for buying certainly puts us in position to offer superior values to our customers. We have special offerings for the next few days in solid mahogany, genuine Circassian walnut, birds' eye maple and quartered oak bed room furniture.

The finest line of Parlor Furniture ever shown in Wilmington. Bernstein Beds, Ostermoore Mattresses, Bloch's Go Carts and Carriages, Hoosier Ketchel Cabinets.

Our reputation for straightforward, honest, upright, honorable transactions have become a matter of history in this community.
